general and genome edited plants in particular, as well as the underlying regulatory approaches. The reports, which focus on the regulatory status quo of genome edited plants in Argentina, Australia, Canada, the EU, Japan and the USA, were written by distinguished experts following a uniform structure. On this basis, the legal frameworks are compared in order to foster a rational assessment of which approaches could be drawn upon to adjust, or to completely realign, the current EU regime for GMOs. In addition, a separate chapter identifies potential best practices for the regulation

Startling pulp theory-fictions, forays into cyberculture, occultural studies and popular numerics, paranoid cosmic conspiracy, and schizoid tactics for escaping the reality system recovered from the prehistoric lore of Lemurian Time Sorcery. From before the beginning (which was also, according to them, already the end), the adepts of the Architectonic Order of the Eschaton have worked tirelessly to secure the past, present, and future against the incursions of Neolemurian time-sorcery, eliminating all polytemporal activity, stitching up the future, sealing every breach and covering

The texts collected here document the CCRU's perilous efforts to catalogue the traces of Lemurian occulture, bringing together the scattered accounts of those who had stumbled upon lagooned relics of nonhuman intelligence—a project that led ultimately to the recovery of the Numogram and the reconstruction of the principles of Lemurian time-sorcery—before disintegrating into collective schizophrenia and two decades of absolute obscurity. To plunge into the tangled mesh of these conspiracies, weird tales, numerical plagues, and suggestive coincidences is to test your sense of reality beyond the limits of reasonable tolerance—to enter the sphere of unbelief, where demonic currents prowl, where fictions make themselves real.
