Managed Care

The origins of managed health care -- Types of managed care organizations and integrated health care delivery systems -- Network management and reimbursement -- Management of medical utilization and quality -- Internal operations -- Medicare and Medicaid -- Regulation and accreditation in managed care.

Health Insurance and Managed Care: What They Are and How They Work is a concise introduction to the workings of health insurance and managed care within the American health care system. Written in clear and accessible language, this text offers an historical overview of managed care before walking the reader through the organizational structures, concepts, and practices of the health insurance and managed care industry. The Fifth Edition is a thorough update that addresses the current status of The Patient Protection and Affordable Care Act (ACA), including political pressures that have been partially successful in implementing changes. This new edition also explores the changes in provider payment models and medical management methodologies that can affect managed care plans and health insurer.

Health Sciences & Professions

Essentials of the U.S. Health Care System, Fifth Edition is a clear and concise distillation of the major topics covered in the best-selling Delivering Health Care in America by the same authors. Designed for undergraduate and graduate students in programs across the health disciplines, Essentials of the U.S. Health Care System is a reader-friendly, well organized resource that covers the major characteristics, foundations, and future of the U.S. health care system. The text clarifies the complexities of health care organization and finance and presents a solid overview of how the various components fit together.

An introductory textbook derived from the bestseller the Managed Health Care Handbook, Second Edition, this text provides all the basic information needed to learn critical concepts of managed care. Everything from types of managed care organizations, negotiating and contracting to controlling utilization and using data reports in medical management. An instructor's manual is available upon request.
