Ritorna il celebre classico, tradotto in tutto il mondo, che ha mostrato come ragione, storia, esperienza confermino la Verità del Vangelo.Dal 1976 questo libro è stato continuamente ristampato e tradotto. Tanto da essere uno dei saggi più diffusi non solo in Italia (oltre un milione di copie), ma anche nel mondo intero, dove circola in una trentina di lingue. Ormai un classico, ma scritto da un autore il cui motto è: «Studiare come un buon professore e scrivere come un buon giornalista». Per questo non è stato contestato dagli studiosi razionalisti e al contempo è stato letto con passione anche da chi non abbia una particolare cultura. Il lettore è coinvolto in una ricerca appassionante che conferma i cattolici nella fede e che può fa riflettere gli increduli. Queste pagine infatti - scritte sì da un cristiano, ma convertito in età adulta dall'agnosticismo - si affidano soltanto all'evidenza dei fatti e della storia.

For the first time, Massimo Introvigne proposes a general social history of Satanism and anti-Satanism, from the French Court of Louis XIV to the Satanic scares of the late 20th century, satanic themes in Black Metal music, the Church of Satan, and beyond.

This book studies the uses of orality in Italian society, across all classes, from the fifteenth to the seventeenth century, with an emphasis on the interrelationships between oral communication and the written word. The Introduction provides an overview of the topic as a whole and links the chapters together. Part 1 concerns public life in the states of northern, central, and southern Italy. The chapters examine a range of performances that used the spoken word or song: concerted shouts that expressed the feelings of the lower classes and were then recorded in writing; the proclamation of state policy by town criers; songs that gave news of executions; the exercise of power relations in society as recorded in trial records; and diplomatic orations and interactions. Part 2 centres on private entertainments. It considers the practices of poetry sung in social gatherings and on stage with and without improvisation; the extent to which lyric poets anticipated the singing of their verse and collaborated with composers; performances of comedies given as dinner entertainments for the governing body of republican Florence; and a reading of a prose work in a house in Venice, subsequently made famous through a printed account. Part 3 concerns collective religious practices. Its chapters study sermons in their own right and in relation to written texts, the battle to control spaces for public performance by civic and religious authorities, and singing texts in sacred spaces.

This book confronts the challenges that hermeneutics brings to ethics and education by thematizing the critical influence which ethics and contemporary educational theory and practice have on the self-understanding of philosophical hermeneutics. In the hermeneutic spirit of commitment to cultivating lifelong habits of critical thinking, moral reflection, and articulate expression, the book presents many voices that illuminate a rich cultural diversity with the profound hope of nurturing the full-flourishing of human beings. The hermeneutics of education calls for diverse ways of thinking about education, which deeply cares for the common good of individuals, communities, and nations. This diversity promotes a genuine interest in different approaches to the event (Ereignis) of education. (Series: International Studies in Hermeneutics and Phenomenology - Vol. 8) [Subject: Hermeneutics, Ethics, Education]

Some of the best minds in Mariology today have collaborated to produce this monumental anthology in honor of Our Lady and in complete fidelity to the Magisterium. Buy this book and make a present of it to your parish priest, the religious sister you know, the seminarian from your diocese, or the consecrated person or educated layperson at your parish. It's a Mariological "must read," especially for our priests and seminarians. -Dr. Scott Hahn Author and Professor of Theology at Franciscan University of Steubenville

Thomas Piketty's Capital in the Twenty-First Century initiated a great debate not just about inequality but also regarding the failures found in the economic models used by theoreticians and practitioners alike. Wealth of Persons offers a totally different perspective that challenges the very terms of the debate. The Great Recession reveals a great existential rift at the core of certain economic reflections, thereby showing the real crisis of the crisis of economics. In the human sciences we have created a kind of "Tower of Babel" where we cannot understand each other any longer. The "breakdowns" occur equally on the personal, social, political, and economic levels. There is a need for an "about-face" in method to restore harmony among dissociated disciplines. Wealth of Persons offers a key to such a restoration, applying insights and analysis taken from different economic scholars, schools of thought, philosophical traditions, various disciplines, and charismatic entrepreneurs. Wealth of Persons aims at recapturing an adequate understanding of the acting human person in the economic drama, one that measures up to the reality. The investigation is a passport allowing entry into the land of economic knowledge, properly unfolding the anthropological meaning of the free economy.

Landscapes of Desire in the Poetry of Vittorio Sereni is the first book-length study in English on Vittorio Sereni (1913-83), one of the major figures of Italian twentieth-century poetry. It looks at how Sereni constructs a new identity for the lyric 'I' through analysing the poet's relationship to landscape (both geographical and poetic), and his dialogue with the Italian poetic tradition, rooted in the notion of desire and a deep-seated preoccupation with absence and loss. It argues that these facets of Sereni's poetry endow his subject with a psychological and linguistic complexity that earns him a place alongside some of the more experimental figures of twentieth-century poetry, while reinforcing at the same time his debt to tradition and his vital contribution to the development and adaptation of the lyric form.

In the twentieth century in Italy, there was a man who during his lifetime (1903-1994) became a legend for those who did not know him, and a great spiritual Teacher for those who were lucky enough to meet him. His name was Gustavo Rol, and he was an upper class gentleman who dressed elegantly, possessed an

encyclopedic body of knowledge, the soul of an artist and the spirit of a mystic. As a young man, like Prince Siddhartha, he obtained enlightenment, even though he never declared as much openly. One of the consequences was that he began to manifest an impressive range of "possibilities" that are generally referred to as "paranormal" clairvoyance, telepathy, precognition, bilocation, levitation, telekinesis and many more. This anthology collects all of the anecdotes recounted over more than 60 years from numerous witnesses, including famous personalities from the Italian and international cultural scene. According to Rol, in the future science will be capable of explaining these phenomena...

The richest and most politically complex regions in Italy in the earliest middle ages were the Byzantine sections of the peninsula, thanks to their links with the most coherent early medieval state, the Byzantine empire. This comparative study of the histories of Rome, Ravenna, and Venice examines their common Byzantine past, since all three escaped incorporation into the Lombard kingdom in the late 7th and early 8th centuries. By 750, however, Rome and Ravenna's political links with the Byzantine Empire had been irrevocably severed. Thus, did these cities remain socially and culturally heirs of Byzantium? How did their political structures, social organisation, material culture, and identities change? Did they become part of the Western political and ideological framework of Italy? This study identifies and analyses the ways in which each of these cities preserved the structures of the Late Antique social and cultural world; or in which they adapted each and every element available to them to their own needs, at various times and in various ways, to create a new identity based partly on their Roman heritage and partly on their growing integration with the rest of medieval Italy. It tells a story which encompasses the main contemporary narratives, documentary evidence, recent archaeological discoveries, and discussions on art history; it follows the markers of status and identity through titles, names, ethnic groups, liturgy and ritual, foundation myths, representations, symbols, and topographies of power to shed light on a relatively little known area of early medieval Italian history.
