For over sixty years, American guitarist John Fahey (1939 – 2001) has been a storied figure, first within the folk and blues revival of the long 1960s, later for fans of alternative music. Mythologizing himself as Blind Joe Death, Fahey crudely parodied white middle-class fascination with African American blues, including his own. In this book, George Henderson mines Fahey's parallel careers as essayist, notorious liner note stylist, musicologist, and fabulist for the first time. These vocations, inspired originally by Cold War educators' injunction to creatively express rather than suppress feelings, took utterly idiosyncratic and prescient turns. Fahey voraciously consumed ideas: in the classroom, the counterculture, the civil rights struggle, the new left; through his study of philosophy, folklore, African American blues; and through his experience with psychoanalysis and southern paternalism. From these, he produced a profoundly and unexpectedly refracted vision of America. To read Fahey is to vicariously experience devastating critical energies and self-soothing uncertainty, passions emerging from a singular location—the place where lone, white rebel sentiment must regard the rebellion of others. Henderson shows the nuance, contradictions, and sometimes brilliance of Fahey's words that, though they were never sung to a tune, accompanied his music.

This interdisciplinary book explores the concept of convergence of the EU with the global legal order. It captures the actions, law-making and practice of the EU as a cutting-edge actor in the world promoting convergence 'against the grain'. In a dynamic 'twist' the book uses methodology to reflect upon some of the most dramatically changing dimensions of current global affairs. Questions explored include: who and what are the subjects and objects of convergence as to the EU and the world? How do 'court-centric' and less 'court-centric' approaches differ? Can we use political science and international relations as 'service tools'? Four key themes are probed: - framing EU convergence; - global trade against convergence; - the EU as the exceptional internationalist; and - positioning convergence through methodology.

For four thousand years, the lavish crypt of the Pharaoh Mamose has never been found-- until the beautiful Egyptologist Royan Al Simma finds a tantalizing clue to its location in the Seventh Scroll, a cryptic document written by the slave Taita. But the location of the crypt and its treasure is a secret others would kill to possess. Only one step ahead of assassins, Royan runs for her life and into the arms of the only man she can trust, Sir Nicholas Quenton-Harper-- a daring man who will stake his fortune and his life to join her hunt for the king's tomb. Together, they will embark on a breathtaking journey to the most exotic locale on earth, where the greatest mystery of ancient Egypt, a chilling danger, and an explosive passion are waiting. Steeped in ancient mystery, drama, and action, Wilbur Smith's The Seventh Scroll will pull you in for an adventure of a lifetime.
