of unprecedented

political discussion,
many better

saw no reason why
they should not

and began to voice
their opinions
alongside those of
men, publishing

all sections of society from Puritan preachers to court judges, from husbands to court rakes. This reaction often found expression in the violent and brutal treatment of women who were seen to have stepped out of line, whether legally,

modern England,
this study explores
how and why
women wrote, the
myriad forms their
alphabets could
assume, and the
shape which
vernacular literacy
acquired in their
hands. Elizabeth
Mazzola argues
that early modern
women's writings

Access Free Female

often challenged the lessons of their male teachers, since they were designed to conceal rather than reveal women's learning and schooling.

Employed by early modern women with great learning and much art, such difficult or

'resistant' literacy organized households and administrative offices alike, and transformed the broader history of literacy in the West. Chapters treat writers like Jane Sharp, Anne Southwell, Jane Seager, Martha Moulsworth,

and Katherine Parr
alongside images
of women writers
presented by
Shakespeare and
Sidney. Managing
women's literacy
also concerned

Mazzola analyzes how both the emerging vernacular and a developing bureaucratic state were informed by these contests over women's hands.
