Feminism And Science Fiction

Feminist science fiction is a subgenre of science fiction focused on theories

Read Book Feminism And Science Fiction

that include feminist themes including but not limited to gender inequality, sexuality, race, economics, and reproduction. Feminist SF is political because of its tendency to critique the dominant culture. Some of the most notable feminist science fiction works have illustrated these themes using utopias to explore a society in which gender differences or gender power imbalances do not exist, or dystopias to explore wo

The world of women's science fiction per se, never mind feminist science fiction, might as well be an extra-solar planet for most of us. This is partly why I decided to read Sarah LeFanu's book, 'In the Chinks of the World Machine', a literary criticism of women's and feminist science fiction. Although fairly academic in prose style, this is still suitable for a general readership.

Often, a feminist science fiction novel

Read Book Feminism And Science Fiction

is more of a dystopia. Dystopic science fiction imagines a world gone terribly wrong, exploring the most extreme possible consequences of current society's problems. In a feminist dystopia, the inequality of society or oppression of women is exaggerated or intensified to highlight the need for change in contemporary society.

"To Write Like a Woman is a rare example of a feminist tackling science fiction using postmodern theory, which makes for a much more sophisticated and nuanced appraisal than the usual fare." --Passion "Russ' essays are witty and insightful. An excellent book for any writer or reader." --Feminist Bookstore News "In her new book of essays... Russ continues to debunk and demand, edify and entertain.... Appreciative of surface aesthetics, she continually delves deeper than most critics, yet in terms so simple and accessible that her essays read like lively, angry, humorous dialogues conducted face-to-face with the author. Russ is the antithesis of the distant critic in her ivory tower." --Paul Di Filippo, The Washington Post Book World "... 20 years of the author's feisty reports

consideration of the aesthetic of science fiction to a reading of the lesbian identity of Willa Cather. To Write Like a Woman includes essays on horror stories and the supernatural, feminist utopias, popular literature for women (the "modern gothic"), and the feminist education of graduate students in English.

Television is entering a unique era, in which women and minorities no longer serve under white captains but take the lead--and all the other roles as well. In a brilliant new universe where the intersectional values of fourth wave feminism are becoming more widespread, fantasy and science fiction are leading the charge. Shows from Star Wars to Doctor Who are rewriting their traditional storylines to include more well-rounded and racially

diverse female characters. Steven Universe, DC's Legends of Tomorrow, Orphan Black and Sense8 highlight queer characters and experiences. Dystopias like Marvel's Jessica Jones and The Handmaid's Tale show the female perspective entirely, guiding viewers from trauma to self-determination. In fantasy and horror, Wynonna Earp, Game of Thrones, Supergirl, Vikings, American Horror Story, Black Mirror, and The Walking Dead reveal how much the story changes with a spectrum of women reclaiming the text from white, straight, young, cisgender men. These new shows are intersectional, digital, global, critical, and political, with fan responses changing the content and cutting-edge platforms like Netflix and Hulu shaking up the format.

Read Book Feminism And Science Fiction

□ Fourth wave feminism has entered the national conversation and established a highly visible presence in popular media, especially in cutting-edge science fiction and fantasy films and television series. Wonder Woman, the Wasp, and Captain Marvel headline superhero films while Black Panther celebrates nonwestern power. Disney princesses value sisterhood over conventional marriage. This first of two companion volumes addresses cinema, exploring how, since 2012, such films as the Hunger Games trilogy, Mad Max: Fury Road, and recent Star Wars installments have showcased women of action. The true innovation is a product of the Internet age. Though the web has accelerated fan engagement to the point that progressivism and backlash happen simultaneously, new films increasingly

in the early magazine period before the Second World War. Tracing the tradition of women's SF back to the 1600s, the author demonstrates how women such as Margaret Cavendish and Mary Shelley drew critical attention to the colonial mindset of scientific masculinity, which was attached to scientific institutions that excluded women. In the late nineteenth century, Charles Darwin's theory of sexual selection provided an impetus for a number of first-wave feminists to imagine Amazonian worlds where women control their own bodies, relationships and destinies. Patrick B. Sharp traces how these feminist visions of scientific femininity, Amazonian power and evolutionary progress proved influential on many women publishing in the SF magazines of the late 1920s and early
