M-commerce (mobile-commerce) refers to e-commerce activities carried out via a mobile terminal such as a phone or PDA. M-commerce applications for both individuals and organizations are expected to grow considerably over the next few years. Mobile Commerce: Technology, Theory and Applications addresses issues pertaining to the development, deployment, and use of these applications. The objective of this book is to provide a single source of up-to-date information about mobile commerce including the technology (hardware and software) involved, research on the expected impact of this technology on businesses and consumers, and case studies describing state-of-the-art m-commerce applications and lessons learned.

WITHOUT MERCY It's Judgment Day for the Church as militant members of a secret cult plot to destroy the Vatican and usher in the Apocalypse. These so-called soldiers of God arrive armed with a weapon of "divine power," which they claim is the biblical Ark of the Covenant stolen from its holy shrine in Ethiopia. Their campaign to purge the earth of heretics has begun. As the cult's hellish agenda spills blood in cities across the globe, panic spreads. Mack Bolan's mandate becomes to neutralize the threat by direct means. His counterstrike begins on the ground in Ethiopia, tracking the murderous trail toward Rome. And he demands the ultimate sacrifice from those willing to kill for their faith—death by Executioner.

This book provides an essential overview of trade between Brazil and China, analyzes the regulatory framework for Brazil's foodstuff exportation and China's foodstuff importation, and identifies the main products, market shares, barriers to market access, and e-commerce strategies. The book also addresses the importance of consumer health and the latest developments regarding the United Nations Guidelines for Consumer Protection. Lastly, based on the statistics for Brazil's food exports to Mainland China, Hong Kong and Macau as separate customs areas, the book explores the role of Macau and

calls for intensifying its links with Portuguese-speaking countries, including Brazil.

In September 2002, house hunters Anthony and Linda O'Malley from North Wales arrived in Benidorm of Spain's Costa Blanca to bid for a house at auction that they had earmarked for their retirement. Within a week of their arrival, the couple vanished. Alerted by the withdrawal of large sums of cash from the couple's UK bank accounts the Welsh police launched their own missing persons inquiry. Daughter Nicola Welch, frantic with worry but with no idea of what really happened, made an appeal on Crimewatch for her parents to get in touch. Six months after the couple's disappearance, following emailed ransom demands from a mysterious figure codenamed Phoenix, Spanish police recovered their bodies from the cellar floor in a villa in Alcoy. The full horrifying story was pieced together in a painstaking investigation. The O'Malleys had been tricked into viewing the property, held captive for five days and forced to hand over the money they'd saved for their deposit. When they were no longer of use, they were disposed of in the cellar of the very house they'd hoped would be their dream home. Investigative journalist Danny Collins helped North Wales officers track down the killers in a tense and dangerous search - this is what he uncovered.
