Public Policy Analysis, the most widely cited book on the subject, provides readers with a comprehensive methodology of public policy analysis. Starting from the premise that policy analysis is an applied social science discipline designed for solving practical problems facing public and nonprofit organizations, the book bridges the gap between theory and practice. It provides practical skills for conducting policy analysis and communicating findings through memos, position papers, and other forms of structured analytical writing. The book asks readers to critically analyze the arguments of policy practitioners as well as political scientists, economists, and political philosophers.

MANAGEMENT: THE NEW WORKPLACE, 6e International Edition provides an engaging survey of modern management practice that seamlessly integrates classic and contemporary principles. Rather than concentrating on large global enterprises, the text focuses on dynamic small to mid-sized "local" businesses and entrepreneurial issues, giving students valuable real-world insights and practical skills they can readily apply when beginning or continuing their careers. To help students deepen their understanding and hone their skills, numerous skill-building and application exercises appear in every chapter.

MANAGEMENT: THE NEW WORKPLACE, 6e International Edition also features a streamlined format and impressive ancillary package that make it affordable, flexible, well-suited to any course, and effective for students of diverse backgrounds and interests.

Daft and Marcic's action-first approach turns the traditional learning model on its end. Instead of starting with concepts and moving to application, this text starts with application, an introductory problem or challenge that encourages you to first empty out your ideas so you are ready to understand new ideas and acquire new skills. Each chapter provides a menu of resources for engagement, application, and learning, everything you need to develop the spot-on management skills you'll need to be a successful manager. This new learning philosophy leads you through a seven-step learning process: 1. Manager Challenge, 2. Initial Response, 3. Discover Yourself, 4. Discover Knowledge, 5. Action Learning Exercises, 6. Test Your Mettle, and 7. Personal Skills Log. Shorter, highly-focused chapters take you through each of these seven steps, allowing you to capture the essence and critical points for each topic. The mass of research material has been condensed and focused into discrete learning packages (chapters) designed specifically for engagement. BUILDING MANAGEMENT SKILLS offers a unique new set of Challenge Videos that are specifically designed to help develop your decision-making and thinking skills. After you watch the video challenge you are asked to respond to the challenge by solving the problem, helping you see the relevance of the chapter material and answering the question Why do I need to know this material?. These innovative, decision-making Challenge Videos are also available in CengageNOW. Organized around a new learning philosophy, with new technology and a coherent learning package for you to acquire management skills through an active first do, then learn approach, Daft and Marcic have created a truly unique learning experience with BUILDING MANAGEMENT SKILLS.
