Written specifically for teens, Math for Financial Literacy helps prepare students for the real world by teaching them how to apply basic math concepts to the tasks they will use in their everyday lives, such as managing a bank account, using credit cards, and creating a budget. Each chapter is structured to help students understand why money and math skills are crucial for professional and personal success with concept previews, warm-ups, demonstrations with numbered steps, and immediate reinforcement followed by review activities. Students engage with technology skills and computational thinking throughout real-world scenarios and end of chapter assessment. The 2nd edition has been updated to include contemporary examples and to reflect changes to tax forms, tuition costs, and digital banking practices.

Gives the teacher workbook materials to help students relate their math skills to the problems they will encounter in adult life, such as personal budgeting, major purchases, figuring discounts, balancing a checkbook, etc.

First in the Arbor Algebra series. A writing-based, common sense, whimsical & engaging introduction to algebra for middle-grade math students.

Financial Algebra: Advanced Algebra with Financial Applications is a substantive modeling course for all students that teaches and uses advanced algebra in the content areas of discretionary spending, banking, credit, auto and home ownership, employment, taxes, investments, entrepreneurship, retirement, & budgeting. The program draws upon selected topics from Advanced Algebra, Geometry, Precalculus, Statistics and Probability. Students need only an Algebra 1 prerequisite. The newest edition includes the most recent IRS tax code updates and how they affect our daily lives. Over the decades, the program has proven to be a motivating, engaging, and rewarding experience for all students.

Math for Business & Finance: An Algebraic Approach provides modern examples for students to understand business mathematics and make connections with real-world applications. The course covers mathematical concepts from an algebraic approach, combined with Business applications. Every chapter is devoted to a Personal Finance theme, with topics that include Payroll and the Cost of Purchasing a Home. There is also extensive integration of scientific calculator notation, and also has the Wall Street Journal and Kiplinger news clips that have been widely popular in Jeffrey Slater's other two Business Math texts. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Make economics easy for students in grades 5 and up using Economics and You! This 64-page book features an in-depth, real-world simulation activity that reinforces economic and math concepts while introducing students to the consumer world. Students learn how to balance a checkbook, calculate interest, develop a budget, buy a car, and file taxes.
