Devoted to the Arts and Crafts Movement past and present, this new magazine celebrates the revival of quality and craftsmanship. Each issue is a portfolio of the best work in new construction, restoration, and interpretive design, presented through intelligent writing and beautiful photographs. Offering hundreds of contemporary resources, it showcases the work not only of past masters, but also of those whose livelihoods are made in creating well-crafted homes and furnishings today. The emphasis is on today's revival in architecture, furniture, and artisanry, informed by international Arts & Crafts and the early-20th-century movement in America: William Morris through the Bungalow era. Includes historic houses, essays and news, design details, how-to articles, gardens and landscape, kitchens and baths. Lots of expert advice and perspective for those building, renovating, or furnishing a home in the Arts & Crafts spirit. From the publisher of Old-House Interiors magazine and the Design Center Sourcebook. artsandcraftshomes.com

Our houses are bigger than ever, but our families are smaller. Our kids go to the best schools we can afford, but we hardly see them. We've got more money to spend yet we're further in debt than ever before. What is going on? The Western world is in the grip of a consumption binge that is unique in human history. We aspire to the lifestyles of the rich and famous at the cost of family, friends and personal fulfilment. Rates of stress, depression and obesity are up as we wrestle with the emptiness and endless disappointments of the consumer life. Affluenza pulls no punches, claiming our whole society is addicted to overconsumption. It tracks how much Australians overwork, the growing mountains of stuff we throw out, the drugs we take to self-medicate' and the real meaning of choice'. Fortunately there is a cure. More and more Australians are deciding to ignore the advertisers, reduce their consumer spending and recapture their time for the things that really matter. Clive Hamilton and Richard Denniss at the Australia Institute never disappoint - they set out on paths others don't go down, then explore without fear or favour and finally draw conclusions about modern Australia, warts and all. It's all accompanied by passion which is why the results cannot be ignored.' Geraldine Doogue ABC broadcaster Fascinating - at the same time a call to arms and a chill-pill, Affluenza challenges not just individuals, but society itself.' Adam Spencer comedian, mathematician and former radio DJ

This book offers a unique perspective on meaning in language, broadening the scope of existing understanding of meaning by introducing a comprehensive and cohesive account of meaning that draws on a wide range of linguistic approaches. The volume seeks to build up a complete picture of what meaning is, different types of meaning, and different ways of structuring the same meaning across myriad forms and varieties of language across such domains, such as everyday speech, advertising, humour, and academic writing. Supported by data from psycholinguistic and neurolinguistic research, the book combines different approaches from scholarship in semantics, including formalist, structuralist, cognitive, functionalist, and semiotics to demonstrate the ways in which meaning is expressed in words but also in word order and intonation. The book argues for a revised conceptualisation of meaning toward presenting a new perspective on semantics and its wider study in language and linguistic research. This book will appeal to scholars interested in meaning in language in such fields as linguistics, semantics, and semiotics.

The order and behaviour of the premodifier (an adjective, or other modifying word that appears before a noun) has long been a puzzle to syntacticians and semanticists. Why can we say 'the actual red ball', but not 'the red actual ball'? And why, conversely, do some other premodifiers have free variation in sentences; for example we can say both 'German and English speakers' and 'English and German speakers'? Why do some premodifiers change the meaning of a phrase in some contexts; for example 'young man', can mean 'boyfriend', rather than 'man who is young'? Drawing on a corpus of over 4,000 examples of English premodifiers from a range of genres such as advertising, fiction and scientific texts, and across several varieties of English, this book synthesises research into premodifiers and provides a new explanation of their behaviour, order and use.
