The free product is the coproduct in the category of groups. That is, the free product plays the same role in group theory that disjoint union plays in set theory, or that the direct sum plays in module theory. Even if the groups are commutative, their free product is not, unless one of the two groups is the trivial group.

Free-to-play (F2P or FtP) video games, also known as free-to-start, are games that give players access to a significant portion of their content without paying. Free-to-play can be contrasted with pay to play, in which payment is required before using a service for the first time.. There are several kinds of free-to-play business models. The most common is based on the freemium software model ...

"Translated with an uncanny sense for the overall point of Augustine's doctrine. In short, a very good translation. The Introduction is admirably clear." --Paul Vincent Spade, Indiana University

The main objective of Cambridge Texts in the History of Philosophy is to expand the range, variety, and quality of texts in the history of philosophy which are available in English. The series includes texts by familiar names (such as Descartes and Kant) and also by less well-known authors. Wherever possible, texts are published in complete and unabridged form, and translations are specially commissioned for the series. Each volume contains a critical introduction together with a guide to further reading and any necessary glossaries and textual apparatus. The volumes are designed for student use at undergraduate and postgraduate level, and will be of interest not only to students of philosophy but also to a wider audience of readers in the history of science, the history of theology, and the history of ideas. The works translated here deal with two major themes in the thinking of St. Augustine (354-430): free will and divine grace. On the one hand, free will enables human beings to make their own choices; on the other hand, God's grace is required for these choices to be efficacious. On the Free Choice of the Will, On Grace and Free Choice, On Reprimand and Grace, and On the Gift of Perseverance set out Augustine's theory of human responsibility, and sketch a subtle reconciliation of will and grace. This volume is the first to bring together Augustine's early and later writings on these two themes, in a new translation by Peter King, enabling the reader to see what Augustine regarded as the crowning

achievement of his work. The volume also includes a clear and accessible introduction that analyzes Augustine's key philosophical lines of thought. Karl Ameriks is Professor Philosophy at the University of Notre Dame Desmond M. Clarke is Emeritus Professor of Philosophy at University College Cork
