The demand for residential communities for seniors rises as the U.S. population continues to age. This growth means that new administrators and staff members often are learning by trial and error the complicated task of delivering high-quality and consistent services to elderly persons. While many new facilities have been successful, others have been plagued by a variety of administrative and financial difficulties. Senior Living Communities remains the definitive guide to managing these facilities. In this thoroughly updated and revised edition, Benjamin W. Pearce offers a wealth of sound advice and practical solutions. He discusses resident relations, operating methods, staffing ratios, department management, cost containment, sales and marketing strategies, techniques of financial analysis, budgeting, and human resources. New chapters address issues particular to dementia care and architecture, and the appendix contains a department-by-department audit of senior living operations. From the front lines to the boardroom, this book should be a part of every decision-making process for improving and maintaining assisted living, congregate, and continuing care retirement communities.

LexisNexis Practice Guide New Jersey Elder Law eBook explains how to coordinate the many intertwining areas of New Jersey and federal law that impact on each elder law client. It combines how-to practice guidance, 75 task-oriented checklists, and 50 targeted cross-references to specific state and federal sources. Written by two certified elder law practitioners, Linda S. Ershow-Levenberg and Peggy Sheahan Knee, this Practice Guide distills 20-plus years of experience in the following complex areas: • Medicare • Medicaid • Social Security Disability • Asset Preservation • Advance Directives • Guardianships • Continuing Care Retirement Communities • Assisted Living Facilities • Nursing Homes • Estate Planning • Elder Abuse Also contains discussions of the Global Options Consolidation of the Home and Community-based Waiver Programs and the Pre-Eligibility Medical Expense (PEME) Deduction.

Designated a Doody's Core Title! "Caring for the older adult population is a challenge and the goal of nursing practice is to help preserve or restore an older adult's function and maximize their well-being and quality of life. This book is a wonderful resource for assisted living clinicians and nurses who wish to serve this population. It is well written, easy to read, and well organized so it can be used as a textbook for nursing students in geriatric nursing." Score: 94, 4 stars --Doody's "This book, written by and for nurses across the spectrum of nurse providers (advanced practice nurses, delegating nurses, and the direct care workforce), covers all aspects of management as well as the many common clinical problems and syndromes we encounter among older adults. Further, this book proposes wonderful assessment and intervention material that will help the entire health care team keep residents within their AL communities through early recognition and management of acute illnesses. Kudos to our nursing colleagues for editing this publication and may it serve as the useful guide for AL residents across the country." --John B. Murphy, MD President, American Geriatrics Society Professor of Medicine and Family Medicine Warren Alpert Medical School of Brown University This book provides a comprehensive overview of both management activities and clinical competencies for assisted living nurses. The authors provide practical guidelines and decision-making models to help nurses address both the large- and small-scale challenges of their daily practice. With Assisted Living Nursing, readers can gain the essential problem-solving and task management skills critical to their daily work. The contributors cover a wide range of topics, including: Management Ethics in nursing practice Regulatory oversight and reimbursement Organizational culture Leadership theories and styles Conflict resolution Finance and budget management Risk assessment Clinical Practice Admission-transfer-discharge assessment Infection Control Cultural aspects of care Geriatric clinical syndromes and disorders Palliative and hospice care principles Rehabilitation/restorative nursing Theories of aging Ultimately, this book serves as the definitive, one-stop resource, addressing virtually every topic of interest to assisted living nurses.

Destined to become the defining work on the subject, this timely reference addresses the single fastest growing segment of the senior living industry -- assisted living for those who are unable to live independently but who do not need intensive nursing home care, meals, housekeeping, or twenty-four hour access to medical assistance. Victor Regnier's visually rich guide includes dozens of design solutions from successful assisted living facilities along with fifteen case studies from the U.S. and Europe. The book also covers recent developments in the industry including major changes in financing, growth of dementia, and interest in aging-in-place. All in all, this is the most comprehensive guide to assisted living design that you'll find in any single volume.

Assisted living, the fastest growing residential option, burst upon the American landscape in the late 1980s. These facilities serve persons who no longer are able to live independently and need help with the activities of daily living, but do not need 24-hour nursing care. James Allen has updated and refined this second edition of Assisted Living Administration to include new information on the Senate Aging Taskforce report of 2003, and the financial shape of the industry. The volume also covers resident care issues, aging theories, as well as new industry data. This volume is intended as a text for professionals-in-training for certification, in addition to being a resource for the seasoned administrator.

?LexisNexis Practice Guide New Jersey Elder Law explains how to coordinate the many intertwining areas of New Jersey and federal law that impact on each elder law client. It combines how-to practice guidance, 75 task-oriented checklists, and 50 targeted cross-references to specific state and federal sources. The online version also includes 40 appendixes containing essential reference documents, and 125 downloadable, modifiable forms. Written by two certified elder law practitioners, Linda S. Ershow-Levenberg and Peggy Sheahan Knee, this Practice Guide distills 20-plus years of experience in the following complex areas: • Medicare • Medicaid • Social Security Disability • Asset Preservation • Advance Directives • Guardianships • Continuing Care Retirement Communities • Assisted Living Facilities • Nursing Homes • Estate Planning • Elder Abuse
