"Smart, knowing, and deeply reported, the definitive history of one of modern American humor's wellsprings." (Kurt Andersen, author of *Fantasyland*, host of NPR's *Studio 360* Labor Day, 1969. Two recent college graduates move to New York to edit a new magazine called *The National Lampoon*. Over the next decade, Henry Beard and Doug Kenney, along with a loose amalgamation of fellow satirists including Michael O'Donoghue and P. J. O'Rourke, popularized a smart, caustic, ironic brand of humor that has become the dominant voice of American comedy. Ranging from sophisticated political satire to broad raunchy jokes, the *National Lampoon* introduced iconoclasm to the mainstream, selling millions of copies to an audience both large and devoted. Its excursions into live shows, records, and radio helped shape the anarchic earthiness of John Belushi, the suave slapstick of Chevy Chase, and the deadpan wit of Bill Murray, and brought them together with other talents such as Harold Ramis, Christopher Guest, and Gilda Radner. A new generation of humorists emerged from the crucible of the *Lampoon* to help create *Saturday Night Live* and the influential film *Animal House*, among many other notable comedy landmarks. Journalist Elin Stein, an observer of the scene since the early 1970s, draws on a wealth of revealing, firsthand interviews with the architects and impresarios of this comedy explosion to offer crucial insight into a cultural transformation that still echoes today. Brimming with insider stories and set against the rolling political and cultural landscape of the 1970s, *That's Not Funny, That's Sick* goes behind the jokes to witness the fights, the parties, the collaborations, and the competition among this fraternity of the self-consciously disenchanteds. Decades later, their brand of subversive humor that provokes, offends, and often illuminates is as relevant and necessary as ever.

Politics, Humor, and the Counterculture discusses the post-war period (1945-1972) through the lenses of three artists: Ken Nordine, Lenny Bruce, and Firesign Theatre. Their humor cut through the hypocrisy of the Cold War and the prevailing culture and expanded our horizons. From the Beats to the peace and civil rights movements, these humorists illuminate America from their unique perspectives. Vwadek P. Marciniak highlights the poetic nature of humor as well as its insights on our political and social habits: addiction, conformity, marketing, and fear. The modern is giving way to the post-modern, the fixed to an existential attitude: humanism and humor.

As a science teacher/administrator for 46 years at all education levels, elementary through graduate school, the author witnessed a variety of classroom situations that were not only funny, but often very instructive. In his book, *Humor in the Classroom: From Busby to Brown*, he relates numerous incidents of humor that occurred in his teaching career as well as those of many of his colleagues. The incidents of humor occurred at all grade levels and in a wide variety of institution types: from a tiny Native American boarding school in southeastern Montana (Busby) to Brown University. The point of the book is twofold: to entertain the reader (most folks have gone to school), and to show teachers and aspiring teachers how humor can be a powerful instructional tool. Most of the funny happenings revealed in the book are from the author's experience, but several former and present-day colleagues, friends, and acquaintances have added their own humorous school stories to the mix. The book chronicles the humor that occurred in the author's and his colleagues' classrooms from 1964-2006 and includes stops in Montana, South Dakota, Wyoming, North Carolina, Rhode Island and back to North Carolina. The point of the book is that a sense of humor is not only a prerequisite to being a good teacher, but it can help students in the learning process as well.

This book is the story of Chuck Jones as a young man growing up in a small South Dakota town, his education, military service, graduate work, marriage, and life as a professor. The Jones family moved frequently, taking advantage of job opportunities and research fellowships. Their longest tenures were at Pittsburgh, Pennsylvania, and Madison, Wisconsin. The author provides descriptions of family life, to include their several homes. The book displays the vitality of academic life and family growth. It also identifies the importance of pets to a loving atmosphere. One chapter tells the life of the Jones family from the perspective of their pets. The book is mostly about us and how we lived and prospered through the decades.

This monograph reflects a culmination of influences. Over a decade ago, a graduate student at the University of Waterloo, Dr. Carl Sordoni, had worked with one of the present authors (H.L.) to develop a dissertation concerned with humor. At that time, the literature on humor was scanty. There was much that had been written by philosophers and scholars in literature. But in psychology, especially empirical research in psychology, there was not an overwhelming literature to give substance to the belief that humor was an important element in human affairs. Memories of that dissertation are fond. The findings were disappointing, but the execution of the research provided us with much hilarity. Though the dissertation research did not pan out as we had hoped, we had begun to look for the influence of humor in other investigations that we were conducting. Two published studies from that era are described in this book, one of which grew as an off-shoot of a dissertation by Dr. Paul Antrobus. In these studies not only did we find evidence that humor could be predicted and understood within particular contexts, but again we found enjoyment in doing the studies.
