Commercial deals can be extremely complex and time-consuming. It may take six months to a year for the parties to settle on a sales price, secure funding, sign the paperwork, close escrow, and assume ownership. Leasing transactions usually take less time, but you have to wait for the lessee to assume tenancy before receiving the full commission.

Application programming interfaces (API) act as the digital glue that links services, applications, and systems together to create compelling customer experiences.

Using APIs you can create interfaces between back-end systems and applications that can help you bring new digital services to market, open revenue channels, and exceed customer expectations. IBM® API Connect is an API management solution from IBM that offers capabilities to create, run, manage, and secure APIs and microservices, thus managing the full lifecycle of APIs for both on-premises and cloud environments. This IBM Redpaper™ publication gives a broad overview of APIs and API Connect and covers key considerations for managing the lifecycle of APIs. This paper is targeted for owners of an API Connect based API, such as, C-level executives, members of the business development
