The Onyx Boox Note Air boasts an incredible variety of features and functionality, but that impressive functionality comes at a price: complexity and a steep learning curve. The designers of the Boox Note Air did a magnificent job of planning and laying out the menus and toolbars; the problem is not in the design or execution, it is in the enormous quantity of features and options that are available. And that is a good thing. But in order to take advantage of these options and features you first have to be able to find them, and then know how to use them. That's the purpose of this book: "Getting the Most out of the Onyx Boox Note Air" is intended to reduce anxiety and information overload by serving as a learning guide and reference for using the Boox Note Air. This book will show you - in a logical, systematic manner - what features exist, where to find them, and how to use them, so that you can take advantage of all that the Note Air has to offer.

A stunning and provocative new novel by the internationally celebrated author of *The Blind Assassin*, winner of the Booker Prize. Margaret Atwood's new novel is so utterly compelling, so prescient, so relevant, so terrifyingly-all-too-likely-to-be-true, that readers may find their view of the world forever changed after reading it. This is Margaret Atwood at the absolute peak of her powers. For readers of *Oryx and Crake*, nothing will ever look the same again. The narrator of Atwood's riveting novel calls himself Snowman. When the story opens, he is sleeping in a tree, wearing an old bedsheet, mourning the loss of his beloved Oryx and his best

friend Crake, and slowly starving to death. He searches for supplies in a wasteland where insects proliferate and pigoons and wolvogs ravage the pleeblands, where ordinary people once lived, and the Compounds that sheltered the extraordinary. As he tries to piece together what has taken place, the narrative shifts to decades earlier. How did everything fall apart so quickly? Why is he left with nothing but his haunting memories? Alone except for the green-eyed Children of Crake, who think of him as a kind of monster, he explores the answers to these questions in the double journey he takes - into his own past, and back to Crake's high-tech bubble-dome, where the Paradise Project unfolded and the world came to grief. With breathtaking command of her shocking material, and with her customary sharp wit and dark humour, Atwood projects us into an outlandish yet wholly believable realm populated by characters who will continue to inhabit our dreams long after the last chapter.

He whizzed through his homework in seconds using Memo-Files. But all great power has great danger. Zack and his friends soon learn of an insurrection that threatens not just to end their trip into space, but to destroy humanity itself ...

among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

The sword is rumored to be hidden in a dangerous region of Halja that she is unlikely to return from. But Noon's life isn't the only thing hanging in the balance.
