This book is part of the Foundation Series by Pastor Ron Phillips. The series will contain books describing the basic foundational truths for the Spirit-filled believer. An Essential Guide to Baptism in the Holy Spirit describes the author's own experience of being baptized by the Holy Spirit. It will demonstrate how the power of the Holy Spirit in our lives today can help us to preach the good news, drive out devils, heal the sick, and see God's kingdom on the earth grow.

Every cattle farmer — from the keeper of a family milk cow to the rancher overseeing a large herd — will gain confidence and control by becoming more knowledgeable about calving. Healthy pregnancies, safe births, and thriving calves are critical to every cattle operation, and in remote farm locations, the veterinarian is not always readily available. Even if the vet is nearby, the farm's finances will be healthier if the farmer can oversee most of the calving process. Heather Smith Thomas, an expert on livestock with decades of firsthand experience, covers every routine situation likely to arise before, during, and after calving. And when the calving process is out of the ordinary, Thomas guides the farmer through pregnancy problems, difficult deliveries, recognizing when to call in a vet, and postpartum complications. Her thorough coverage of what to expect in every situation gives farmers the knowledge they need to care personally for their cows. The second half of the book is dedicated to ensuring that every calf gets off to a healthy start. Thomas helps farmers work with cows reluctant to nurse, substitute mothers, and frail calves. A complete chapter on calfhood illnesses explains warning signs and offers tips on prevention and treatment. As people return to farming in growing numbers, the demand for safe, humane livestock knowledge continues to increase. Farmers will turn to this reliable volume again and again as they welcome each new calf.

The period following the death of a loved one can be a time of great turmoil. This sensitive book acts as a supportive road map through the initial period of loss, and through the weeks and months that follow. The authors address not only the emotional and spiritual aspects of bereavement, but also important and often overlooked practical considerations such as dealing with wills and other paperwork, disposing of personal possessions, making arrangements for funerals and memorial services, coping with the anniversaries of a death and resolving family conflict. Drawing on many real examples, they offer compassionate, realistic advice on dealing with guilt and other negative emotions, as well as helpful guidance on how and when to break the news of a death to others, including to children, people with learning disabilities and people with dementia. This will be an invaluable guide for anyone who has experienced, or who is facing, a bereavement. It will also be of interest to professionals involved in supporting those who are bereaved, both as a source of helpful information and as a resource to recommend to clients.
