Carol Tyler has been a professional (and highly acclaimed) cartoonist for over 20 years, appearing in such venues as Weirdo, Wimmen's Comix, and Drawn & Quarterly magazine. But over the years her status as a working mother has drastically curtailed her ability to set aside time for her cartooning. Thus each rare new story from her pen has been greeted with hurrahsas well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

The sketch-style depictions and unusual fonts create an eerie atmosphere where the reader has to decide if what they see really happened or if it is just a work of fiction. Includes writing space for your conclusions. This book makes a great group activity. This is not intended for children. Contains brief nudity.

David just wants to be happy. In fact, he has made it a personal quest to dispel all unhappiness from his life. But it's harder than it sounds: he's approaching thirty, a downmarket DJ by day (and a struggling writer by night), living in a cramped Manhattan apartment. His friends are always there for him -- or are they Annie, his closest friend, is getting married to a man David dubs "Rat Boy"; Dustin and Cameron, David's cohorts in the city, are doing the unthinkable and settling down; and Zach, David's model of cool, as aloof and evasive as a wisp of smoke, is harboring a secret that could capsize the whole crew. On top of everything, David finds himself falling in love with Jane, a younger woman whose wit and charm are matched only by her instability. The Big Happy asks the big questions: Can love and happiness coexist? Are we doomed to live out the mistakes of our youth? Do friendships ripen, or rot, as we age? For David, the prospect of happiness has never been quite so depressing.
