Focuses on the essentials of grammar in ready-to-use worksheets. Provides flexible lessons appropriate for small-group or whole-class work. Features extensive teacher support including objectives, strategies, and answer key.

This new colour edition has been updated to conform to the revised FCE specifications.

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think, to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well-Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. The Well-Trained Mind will give you the tools you'll need to teach your child with confidence and success.

The premiere guide for choosing homeschool curriculum. For beginners or veterans, Cathy helps you wade through the curriculum jungle to choose what's right for each of your children. Reviews of hundreds of books, games, videos, computer programs, parent helps, and much, much more for all subjects.-- Learning styles: Cathy helps you determine each child's learning style, then choose methods and resources that fit each child.-- What your child needs to know -- what is typically taught at each grade level-- Which resources allow your children to work independently, which work best taught one-on-one-- Identifying and dealing with learning disabilities plus a list of
