Bring content to life with the interactive whiteboard ready products for Prentice Hall Chemistry. Prentice Hall Chemistry meets the needs of students with a range of abilities, diversities, and learning styles by providing real-world connections to chemical concepts and processes. The first nine chapters introduce students to the conceptual nature of chemistry before they encounter the more rigorous mathematical models and concepts in later chapters. The technology backbone of the program is the widely praised Interactive Textbook with ChemASAP!, which provides frequent opportunities to practice and reinforce key concepts with tutorials that bring chemistry to students through: Animations, Simulations, Assessment, and Problem-solving tutorials.

The most respected and accomplished authorship team in high school biology, Ken Miller and Joe Levine are real scientists and educators who have dedicated their lives to scientific literacy. Their experience, knowledge, and insight guided them in creating this breakaway biology program -- one that continues to set the standard for clear, accessible writing. Brand-new content includes the latest scholarship on high-interest topics like stem cells, genetically modified foods, and antibiotics in animals.

Powerful strategies that will transform the way you teach and the way your students learn. Advancing Differentiation will lead you through the process of creating a thriving, student-centered, 21st-century classroom. Since its initial publication, the book's materials have undergone rigorous testing and refinement in classrooms all over the world to deliver the best and most effective differentiation strategies. The strategies in this book will help you: Deeply engage every learner while challenging students to think critically, self-regulate, and direct their own learning Set new roles for student and teacher that encourage learner autonomy Employ cutting-edge techniques for designing rigorous E4 curriculum (effective, engaging, enriching, and exciting) This revised and updated edition features: A primer on differentiation, which answers the crucial question, Why differentiate at all? Self-assessment surveys, observation forms, and new ideas for increasing proficiency in classroom differentiation Ways to address the changing needs of the future workforce More articulated curriculum design defining the differences between strategies and skills-refining the levels of conceptual knowledge

Science Explorer: Life, Earth, and Physical Science is a comprehensive series that provides a balanced focus of Life, Earth, and Physical Science topics in each book.

Winner of the 2014 Christian Book of the Year Award "I'M TOO BUSY!" We've all heard it. We've all said it. All too often, busyness gets the best of us. Just one look at our jam-packed schedules tells us how hard it can be to strike a well-reasoned balance between doing nothing and doing it all. That's why award-winning author and pastor Kevin DeYoung addresses the busyness problem head on in his newest book, Crazy Busy - and not with the typical arsenal of time management tips, but rather with the biblical tools we need to get to the source of the issue and pull the problem out by the roots. Highly practical and super short, Crazy Busy will help you put an end to "busyness as usual."

Bring Content to life with the interactive whiteboard ready products for Prentice Hall Earth Science. Renowned authors Edward Tarbuck and Frederick Lutgens invite students on a journey of observation, explanation, and participation in the study of Earth's processes. An accessible writing style, original artwork by Dennis Tasa, and powerful technology create a fresh new program that leads your diverse classroom on a path to discovery. This new edition is perfectly suited to today's high school curriculum. Bringing content to life, the integrated GEODE Key Concepts CD-ROM connects students to the world through video, animations, and assessment.
