OK, I have to say I have been a fan for years of Harry Harrison, and this compilation of stories is excellent.The only problem is that the story, K Factor, is a repeat of Deathworld 2. The author does an admirable job of keeping the action going and has few dull spots in the narration.This is prime example of the prime days of SciFi in the 20th century.

Grimly Eric John Stark slogged toward that ancient Martian city—with every step he cursed the talisman of Ban Cruach that flamed in his blood-stained belt. Behind him screamed the hordes of Ciaran, hungering for that magic jewel—ahead lay the dread abode of the Ice Creatures—at his side stalked the whispering spectre of Ban Cruach, urging him on to a battle Stark knew he must lose!

Prometheus is the largest spacecraft ever built by man. A joint USA-USSR project, the gigantic ship weighs over 20,000 tons--and may be the ultimate solution to the world's energy needs. Like its mythical namesake, who stole fire from the gods and gave it to mankind, Prometheus will capture the energy of the sun and beam it to Earth--unless something goes terribly wrong. An unforeseen accident has stranded Prometheus in a decaying orbit less than a hundred miles above the Earth. Its small, international crew of men and women have a day, maybe less, before they come crashing down with their ship. But there's more at stake than a few astronauts' lives. Prometheus is too immense to burn up in reentry. When it hits, history's greatest endeavor will become the world's biggest bomb. "Harrison wastes little time on anything but down-to-the-wire suspense, but he provides that in whopping good doses. A shamelessly effective Chicken Little potboiler."--Kirkus Reviews At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

After a ten-year absence, the return of one of the most enduring series characters in modern SF James Bolivar "Slippery Jim" DiGriz, Special Corps agent, master con man, interstellar criminal (retired), is living high on the hog on the planet of Moolaplenty when a long-lost cousin and a shipful of swine arrive to drain his bank account and send him and his lovely wife, Angelina, wandering the stars on the wildest journey since Gulliver's T Travels. In this darkly satiric work, Harry Harrison bring his most famous character out of retirement for a charcter tour of the galaxy. The Stainless Steel Rat rides again: a cocktail in his hand, a smile on his lips, and larceny in his heart, in search of adventure, gravitons, and a way to get rid of the pigs.

After 200 years in cryosleep, Jaybee Corbell awakens to find that his mind has been downloaded to another body and he's in servitude to a harsh future State. After his escape via a spaceship, he traverses such vast distances--with accompanying time dilations--that he returns to Earth 3 million years later to discover a world wholly alien to the one he'd left. A.E. van Vogt wrote, "This fantastic novel is a mix of Niven hard science and a time-travel concept to boggle the mind." "Larry Niven is one of the giants of modern science fiction." - Mike Resnick "His tales have grit, authenticity, colorful characters and pulse-pounding narrative drive. Niven is a true master " - Frederik Pohl "Niven's intoxicating concepts, ideas, scientific extrapolations, and exotic hardware buffle up from every page. Rich in imagination and astonishing in breath ... will challenge the most sophisticated readers." - ALA Booklist "This fantastic novel is a mix of Niven hard science and a time-travel concept to boggle the mind...even after the last line the feeling remains of the story still rushing on into the magic distance of the universe." - A.E. van Vogt "Terrific fun " - Kirkus Reviews

The indomitable Stainless Steel Rat returns, under contract from a forty-thousand-year-old billionaire to investigate a string of robberies, robberies that always occur just when the circus comes to town. Reprint.
