Text: HISTORY ALIVE! The Ancient World 4.7 From Small Farming Villages to Large City-States As you've seen, beginning around 3500 B.C.E., the Sumerians went from living in small farming villages to building large, walled cities. How and why did this happen? The answer lies in the problems the Sumerians faced and how they solved them.

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath"—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The

result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

"As panoramic as it is learned, this is ancient history for our globalized world." Tom Holland, author of *Dynasty* and *Rubicon* Twenty-five-hundred years ago, civilizations around the world entered a revolutionary new era that overturned old order and laid the foundation for our world today. In the face of massive social changes across three continents, radical new forms of government emerged; mighty wars were fought over trade, religion, and ideology; and new faiths were ruthlessly employed to unify vast empires. The histories of Rome and China, Greece and India-the stories of Constantine and Confucius, Qin Shi Huangdi and Hannibal-are here revealed to be interconnected incidents in the midst of a greater drama. In *Ancient Worlds*, historian Michael Scott presents a gripping narrative of this unique age in human civilization, showing how diverse societies responded to similar pressures and how they influenced one another: through conquest and conversion, through trade in people, goods, and ideas. An ambitious reinvention of our grandest histories, *Ancient Worlds* reveals new truths about our common human heritage. "A bold and imaginative page-turner that challenges ideas about the world of

antiquity." Peter Frankopan, author of *The Silk Roads*

The Seven Wonders of the Ancient World, and all sorts of mysteries attaching to them, have intrigued people since the second century BCE. Why were these particular creations chosen and when? And why did the ancients want to draw up such a list in the first place? What were the technical and cultural factors involved in the creation and listing of the Wonders? The Seven Wonders still rival many of the phenomenal products of both nature and mankind in their size, majesty, and beauty. Six of them no longer stand, having been destroyed by natural disaster or by human intervention. From the Pyramids at Giza to the Colossus of Rhodes, from the Hanging Gardens of Babylon to the Lighthouse of Alexandria, from the Temple of Ephesus to the Mausoleum at Halicarnassus and the Statue of Zeus at Olympia, the Seven Wonders of the Ancient World have never ceased to fascinate down the ages.
