An early example of the political novel is The Betrothed (1827) by Alessandro Manzoni, an Italian historical novel. Set in northern Italy in 1628, during the oppressive years of direct Spanish rule, it has been seen sometimes as a veiled attack on the Austrian Empire, which controlled Italy at the time the novel was written. It has been called the most famous and widely read novel in the Italian language.

Analyzes novels by Stendhal, Dostoevsky, Eliot, Flaubert, Mann, Woolf, and Gadolis in terms of their historical context

David Cautes wide-ranging study examines how outstanding novelists of the Cold War era conveyed the major issues of contemporary politics and history. In the United States and Western Europe the political novel flourished in the 1930s and 1940s, the crisis years of economic depression, fascism, the Spanish Civil War,the consolidation of Stalinism, and the Second World War. Starting with the high hopes generated by the Spanish Civil War, Cautes then explores the god that failed pessimism that overtook the Western political novel in the 1940s. The writers under scrutiny include Hemingway, Dos Passos, Orwell, Koestler, Malraux, Serge, Greene, de Beauvoir, and Sartre. Strikingly different approaches to the burning issues of the time are found among orthodox Soviet novelists such as Sholokhov, Fadeyev, Kochetov, and Pavlenko. Soviet official culture continued to choke on modernism, formalism, satire, and allegory. In Russia and Eastern Europe dissident novelists offered contesting voices as they engaged in the fraught re-telling of life under Stalinism. The emergence of the New Left in the 1960s generated a new wave of fiction challenging Americas global stance. Mailer, Doctorow, and Coover brought fresh literary sensibilities tobear on such iconic events as the 1967 siege of the Pentagon and the execution of the Rosenbergs.

Although history was once considered a component of the study of literature, the two fields have grown steadily apart since the sixteenth century. Today few literary theorists and critics study history, and even fewer historians follow the work of their colleagues in literature departments, instead, historians continue to interpret the novel as literary critics and theorists did several decades ago. Dominick LaCapra, an intellectual historian well versed in literary theory and methodology, here addresses the complex role of the novel in history and criticism, seeking to establish a few guiding principles for the study of the historicity of literature. LaCapra provides historically informed readings of eight major modern novels: Stendhal's Red and Black, Dostoevsky's Notes from Underground, Eliot's Middle-march, Flaubert's Sentimental Education, Mann's Death in Venice and Doctor Faustus, Woolf's To the Lighthouse, and Gaddis's The Recognitions. In each reading, he explores the question of how the text relates to its historical and literary contexts in symptomatic, critical, and possibly transformative ways. Eschewing both a narrow "intratextual" formalism and a reductive "extratextual" historicism, he attempts to motivate the very selection of relevant contexts for reading by drawing attention to the intellectual and sociopolitical import of our exchange with the past. Throughout, LaCapra consciously emulates the discursive strategy of these novels, thereby reinforcing his assertion that historians have much to learn from modes of discourse they have hitherto viewed as mere documentary symptoms of the past. The work of a knowledgeable and discerning scholar, this bold attempt to create a more engaging dialogue between the past and present will be stimulating reading for intellectual historians and literary theorists.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

In the modern Congress, one of the highest hurdles for major bills or nominations is gaining the sixty votes necessary to shut off a filibuster in the Senate. But this wasn't always the case. Both citizens and scholars tend to think of the legislative process as a game played by the rules in which votes are the critical commodity—the side that has the most votes wins. In this comprehensive volume Gregory Koger shows, on the contrary, that filibustering is a game with slippery rules in which legislators who think fast and try hard can triumph over superior numbers. Filibustering explains how and why obstruction has been institutionalized in the U.S. Senate over the last fifty years, and how this transformation affects politics and policymaking. Koger also traces the lively history of filibustering in the U.S. House during the nineteenth century and measures the effects of filibustering—bills killed, compromises struck, and new issues raised by obstruction. Unparalleled in the depth of its theory and its combination of historical and political analysis, Filibustering will be the definitive study of its subject for years to come.

Political Economy and the Novel: A Literary History of 'Homo Economicus' provides a transhistorical account of homo economicus (economic man), demonstrating this figure's significance to economic theory and the Anglo-American novel over a 250-year period. Beginning with Adam Smith's seminal texts - Theory of Moral Sentiments and The Wealth of Nations - and Henry Fielding's A History of Tom Jones, this book combines the methodologies of new historicism and new economic criticism to investigate the evolution of the homo economicus model as it traverses through Ricardian economics and Jane Austen's Sanditon; J. S. Mill and Charles Dickens' engagement with mid-Victorian dualities; Keynesianism and Mrs Dalloway's exploration of post-war consumer impulses; the amoralistic discourses of Friedrich von Hayek, and Ayn Rand's Atlas Shrugged, and finally the virtual crises of the twenty-first century financial market and Don DeLillo's Cosmopolis. Through its sustained comparative analysis of literary and economic discourses, this book transforms our understanding of the genre of the novel and offers critical new understandings of literary value, cultural capital and the moral foundations of political economy.

As hostilities escalate in late 1965, the fates of three men intertwine in Vietnam.

A powerful novel about two sisters who must reclaim themselves after their lives are dramatically upended, from an award-winning author with "a wonderfully original and limber voice" (The New York Times) "[Nick Laird's] kinetic prose, full of insight about politics, history and religion, dazzles eye and ear." —The New York Times Book Review "Nick Laird takes two experiences poles apart and unites them in gorgeous language... [with] fierce tenderness." —Dave Eggers, author of Heroes of the Frontier Alison Donnelly has suffered for love. Still stuck in the small Northern Irish town where she was born, working for her father's real estate agency, she hopes a second marriage will help her get her life back together. Her sister Liz, a fiercely independent professor who lives in New York City, is about to return to Ulster for Alison's wedding, before heading to an island off the coast of Papua New Guinea to make a TV show about the world's newest religion. Both sisters hope to write their own futures, but the past has other ideas. Alison wakes up the day after her wedding to find that her new husband has a past neither of them can escape. While Liz, in a rainforest on the other side of the planet, finds herself increasingly entangled in the eerie, charged world of Belef, the charismatic middle-aged woman she has come to film, the leader of a cargo cult. As Modern Gods ingeniously interweaves the stories of Liz and Alison, it becomes clear that both sisters must learn how to negotiate with the past, with the sins of fanaticism, and decide exactly what the living owe to the dead. Laird's brave, innovative novel charts the intimacies and disappointments of a family trying to hold itself together, and the repercussions of history and belief.

Politics and the Novel clarifies the role of revolutionary ideas in fiction, establishing the role of the political novel, and tracing the growth of this novel into the 20th century. Examples are drawn from such classics as Stendhal's The Red and the Black, Dostoevsky's The Possessed, Conrad's The Secret Agent, and Turgenev's Fathers and Sons. Howe examines how American novels failed to integrate ideology into their works, including DeForests' Playing the Mischief, Adams' Democracy, James' The Bostonians, and Hawthorne's The Blithedale Romance; he also discusses political fiction after World War II: Kundera's Book of Laughter and Forgetting, Naipaul's Bend in the River, and Solzhenitsyn's The First Circle, among others.

The production of history is premised on the selective erasure of certain pasts and the artifacts that stand witness to them. From the elision of archival documents to the demolition of sacred and secular spaces, each act of destruction is also an act of state building. Following the 1991 Gulf War, political elites in Saudi Arabia pursued these dual projects of historical commemoration and state formation with greater fervor to enforce their postwar vision for state, nation, and economy. Seeing Islamist movements as the leading threat to state power, they sought to de-center religion from educational, cultural, and spatial policies. With this book, Rosie Bsheer explores the increasing secularization of the postwar Saudi state and how it manifested in assembling a national archive and reordering urban space in Riyadh and Mecca. The elites' project was rife with ironies: in Riyadh, they employed world-renowned experts to fashion an imagined history, while at the same time in Mecca they were overseeing the obliteration of a thousand-year-old topography and its replacement with commercial megaprojects. Archive Wars shows how the Saudi state's response to the challenges of the Gulf War served to historicize a national space, territorialize a national history, and ultimately refract both through new modes of capital accumulation.
