I normally purchase books at sales to save money, but I wasn't able to find them at the last sale I went to and am such a fan that I couldn't wait to have them.

It is up to Frade and company to keep them safe. But some people have other ideas...

York Times bestselling authors Rachel Caine and Ann Aguirre. Perfect for fans of *Illuminae* and *The Fifth Wave*. Space renegade Zara Cole may have finally met her match. Zara's street smarts may not be enough when their enemy could be anywhere, destroying civilizations and picking his teeth with the bones. With human enemies, alien creatures, and mechanical stalkers on her tail, it's down to the wire for Zara to save the galaxy—and the people she calls home—before the godking consumes them all.

Meet your new favorite kickass heroine in this daring YA series by New York Times bestselling authors Rachel Caine and Ann Aguirre, a thrilling yet romantic futuristic adventure perfect for fans of Claudia Gray's *A Thousand Pieces of You*. Petty criminal Zara Cole has a painful past that's made her stronger than most, which is why she chose life in New Detroit instead moving with her family to Mars. In her eyes, living inside a dome isn't much better than a prison cell. Still, when Zara commits a crime that has her running scared, jail might be exactly where she's headed. Instead Zara is recruited into the Honors, an elite team of humans selected by the Leviathan—a race of sentient alien ships—to explore the outer reaches of the universe as their passengers. Zara seizes the chance to flee Earth's dangers, but when she meets Nadim, the alien ship she's assigned, Zara starts to feel at home for the first time. But nothing could have prepared her for the dark, ominous truths that lurk behind the alluring glitter of starlight.

"Culture of honor" is what social scientists call a society that organizes social life around maintaining and defending reputation. In an honor culture, because reputation is everything, people will go to great lengths to defend their reputations and those of their family members against real and perceived threats and insults. While most human societies throughout history can be described as "honor cultures," the United States is particularly well known for having a deeply rooted culture of honor, especially in the American South and West. In *Honor Bound*, social psychologist Ryan P. Brown integrates social science research, current events, and personal stories to explore and explain how honor underpins nearly every aspect of our lives, from spontaneous bar fights to organized acts of terrorism, romantic relationships, mental health and well-being, unsportsmanlike conduct in football, the commission of suicide, foreign policy decisions by political leaders, and even how parents name their babies. Sometimes the effects of living in an honor culture are subtle and easily missed—there are fewer nursing homes in the American south, as more parents live with their children as they age—and sometimes the effects are more dramatic, as in the fact that there are more school shootings in honor states, but they are always relevant. By illuminating a surprising and pervasive thread that has endured in our culture for centuries, Brown's narrative will captivate those raised in these types of honor cultures who wish to understand themselves, and those who wish to better understand their neighbors.
