software in one place. These components cannot be ordered separately. HM ClassPrep offers instructors everything they need to develop their lectures—PowerPoint slides with all line art from the text, Word and PDF files of the Instructor's Resource Guide and Instructor's Resource Guide for the Lab Manual, and Word files of the Test Bank. The Instructor's Resource Guide offers a transition guide, tables suggesting the approximate number of lectures to devote to each chapter, summaries of the worked examples and problems, a chapter-by-chapter outline listing those sections that are most important as well as those that may be skipped or assigned as optional, and answers to the review problems on synthesis featured in the Study Guide and Solutions Manual. The Instructor's Guide for the Lab Manual contains detailed

discussions of the experiments in the laboratory manual and answers to the laboratory questions. The Test Bank includes approximately 730 multiple-choice test questions with an accompanying answer key. HM Testing by Diploma combines a flexible test-editing program with a comprehensive gradebook function for easy administration and tracking. HM Testing enables instructors to administer tests via print, network server, or the web. The database contains a wealth of questions and can produce multiple-choice, true/false, fill-in-the-blank, and essay tests. Questions can be customized based on the chapter being covered, the question format, level of difficulty, and specific topics. HM Testing provides for the utmost security in accessing both test questions and grades.
