The place of religion in society has changed profoundly in the last few centuries, particularly in the West. In what will be a defining book for our time, Taylor takes up the question of what these changes mean, and what, precisely, happens when a society becomes one in which faith is only one human possibility among others.

In this spiritual Text, Philosopher Martin Hägglund offers a profoundly inspiring basis for transforming our lives, demonstrating that our commitment to freedom and democracy should lead us beyond both religion and capitalism. This Life argues that we need to cultivate not a religious faith in eternity but a secular faith devoted to our finite life together. Hägglund illustrates that spiritual questions of freedom are inseparable from economic and material conditions: what matters is how we treat one another in this life and what we do with our time. Engaging with great

progress? A vital extension of Charles Taylor's *A Secular Age*, in which he exhaustively chronicled the emergence of secularism in Latin Christendom, this anthology applies Taylor's findings to secularism's global migration. Abdullahi Ahmed An-Na'im, Rajeev Bhargava, Akeel Bilgrami, Souleymane Bachir Diagne, Sudipta Kaviraj, Claudio Lomnitz, Alfred Stepan, Charles Taylor, and Peter van der Veer each explore the transformation of Western secularism beyond Europe, and the collection closes with Taylor's response to each essay. What began as a modern reaction to—as well as a stubborn extension of—Latin Christendom has become a complex export shaped by the world's religious and political systems. Brilliantly alternating between intellectual and methodological approaches, this volume fosters a greater engagement with the phenomenon across disciplines.

How does worship work? How exactly does liturgical formation shape us? What are the dynamics of such transformation? In the second of James K. A. Smith's three-volume theology of culture, the author expands and deepens the analysis of cultural liturgies and Christian worship he developed in his well-received *Desiring the Kingdom*. He helps us understand and appreciate the bodily basis of habit formation and how liturgical formation--both "secular" and Christian--affects our fundamental orientation to the world. Worship "works" by leveraging our bodies to transform our imagination, and it does this through stories we understand on a register that is closer to body than mind. This has critical implications for how we think about Christian formation. Professors and students will welcome this work as will pastors, worship leaders,

and Christian educators. The book includes analyses of popular films, novels, and other cultural phenomena, such as The King's Speech, Rise of the Planet of the Apes, David Foster Wallace's Infinite Jest, and Facebook.

Probably no book published in the last decade has been so ambitious as Charles Taylor's *A Secular Age*. He seeks nothing less than to account for the spread of secularism and decline of faith in the last 500 years. Now a remarkable roster of writers-including Carl Trueman, Michael Horton, and Jen Pollock Michel-considers Taylor's insights for the church's life and mission, covering everything from healthcare to liturgy to pop culture and politics. Nothing is easy about faith today. But endurance produces character, and character produces hope, even in our secular age.
