Writer, journalist, photographer, traveler, cosmopolitan and fashion icon Annemarie Schwarzenbach (1908-1942) was one of the most dazzling and contradictory figures in modern Swiss cultural history.

Customer service is at the centre of many recent changes in work and organisations and is often celebrated as being of benefit to all. This book explores the real nature of customer service from different critical perspectives drawing on a wide range of sectors internationally. A provocative and insightful work aimed at students of organisations and management as well as thoughtful practitioners.

Vols. 2, 4-11, 62-68 include the Society's Membership list; v. 55-80 include the Journal of applied mechanics (also issued separately) as contributions from the Society's Applied Mechanics Division.

With distributed generation interconnection power flow becoming bidirectional, culminating in network problems, smart grids aid in electricity generation, transmission, substations, distribution and consumption to achieve a system that is clean, safe (protected), secure, reliable, efficient, and sustainable. This book illustrates fault analysis, fuses, circuit breakers, instrument transformers, relay technology, transmission lines protection setting using DIGsILENT Power Factory. Intended audience is senior undergraduate and graduate students, and researchers in power systems, transmission and distribution, protection system broadly under electrical engineering.
