George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Authoring a PhD is a complex process. It involves having creative ideas, working out how to organize them, writing up from plans, upgrading the text, and finishing it speedily and to a good standard. It also includes being examined and getting published. Patrick Dunleavy has written Authoring a PhD based on his supervision experience with over 30 students. It provides solid advice to help your PhD students cope with both the intellectual issues and practical difficulties of organizing their work effectively. It is an indispensable and time saving aid for doctoral students in the humanities, social sciences, education, business studies, law, health, arts and visual arts, and related disciplines, and will also be a great help to supervisors.

The cult classic that predicted the rise of fake news—revised and updated for the post-Trump, post-Gawker age. Hailed as "astonishing and disturbing" by the Financial Times and "essential reading" by TechCrunch at its original publication, former American Apparel marketing director Ryan Holiday’s first book sounded a prescient alarm about the dangers of fake news. It’s all the more relevant today. Trust Me, I’m Lying was the first book to blow the lid off the speed and force at which rumors travel online—and get "traded up" the media ecosystem until they become real headlines and generate real responses in the real world. The culprit? Marketers and professional media manipulators, encouraged by the toxic economics of the news business. Whenever you see a malicious online rumor costs a company millions, politically motivated fake news driving elections, a product or celebrity zooming from total obscurity to viral sensation, or anonymously sourced articles becoming national conversation, someone is behind it. Often someone like Ryan Holiday. As he explains, "I wrote this book to explain how media manipulators work, how to spot their fingerprints, how to fight them, and how (if you must) to emulate their tactics. Why am I giving away these secrets? Because I’m tired of a world where trolls hijack debates, marketers help write the news, opinion masquerades as fact, algorithms drive everything to extremes, and no one is accountable for any of it. I’m pulling back the curtain because it’s time the public understands how things really work. What you choose to do with this information is up to you."

This easy-to-engage-with book is a short, practical guide with tips and suggested activities relating to the key stages of the dissertation-writing process. A range of topics is covered, from first steps in understanding research through to writing the final report. The book is accompanied by a website that takes forward the themes of each chapter by providing additional reading and sources of information as well as an opportunity to join a discussion with fellow readers. There are video and audio clips from the authors and other experts as well as links to further digital tools and resources. Companion website - <http://www.etextbooks.ac.uk/dissertations/>

Now in its fifth edition, this guide to project work continues to be an indispensable resource for all students undertaking research. Guiding the reader right through from preliminary stages to completion, The Research Project: How to write it sets out in clear and concise terms the main tasks involved in doing a research project, covering: choosing a topic using the library effectively taking notes shaping and composing the project providing footnotes, documentation and a bibliography avoiding common pitfalls. Fully updated throughout, this new edition features a chapter on making the most out of the Internet, from knowing where to start, to assessing the quality of the material found there. Other features include a model example of a well researched, clearly written paper with notes and bibliography and a chapter on getting published in a learned journal for more advanced researchers. Whether starting out or experienced in research, The Research Project: How to write it is an essential tool for success.

Your dissertation is not a hurdle to jump or a battle to fight; as this handbook makes clear, your dissertation is the first of many destinations on the path of your professional career. Destination Dissertation guides you to the successful completion of your dissertation by framing the process as a stimulating and exciting trip—one that can be completed in fewer than nine months and by following twenty-nine specific steps. Sonja Foss and William Waters—your guides on this trip—explain concrete and efficient processes for completing the parts of the dissertation that tend to cause the most delays: conceptualizing a topic, developing a pre-proposal, writing a literature review, writing a proposal, collecting and analyzing data, and writing the last chapter. This guidebook is crafted for use by students in all disciplines and for both quantitative and qualitative dissertations, and incorporates a wealth of real-life examples from every step of the journey.
