"For more than 30 years, Writing for Social Scientists has offered readers a powerful reassurance: academic writing is difficult, and even accomplished scholars like Howard S. Becker struggle with it. Becker, the consummate sociologist, both analyzes how the professional context of academia contributes to writing problems and offers concrete advice, based on his own experiences and those of his students and colleagues, for overcoming them and gaining confidence as a writer. While the underlying challenges have remained the same over the years, the context in which academic writers work has changed dramatically, thanks to technology and new institutional pressures. This new edition has been updated throughout to reflect these changes, offering a new generation of scholars and students encouragement to write about society or any other scholarly topic clearly and persuasively"--

"Write right - right now - the book by Walter M. Perkins is entertaining and informative for anyone who has ever wanted to write AND publish a book but did not know the steps. The book is broken into easy-to-understand components. Perkins emphasizes the business aspects of writing a book and sheds light on issues such as doing business with graphic designers, agents, publishers, and printers"-- Taken from Amazon.com November 7, 2014.

This workbook contains a variety of exercises and activities designed to help young learners advance the fine motor skills that are essential to the handwriting process, beginning by tracing lines and curves, and then gently introducing some letter-writing practice. Several mazes are also included in the book as a fun way to promote visual motor skills, eye-hand coordination, and problem-solving skills. Young students are introduced to the letters of the alphabet in exercises that have them trace Lowercase Alphabet and then practice writing them on their own. Numbers are also presented in an engaging way, with a lesson in phonetics as well as exercises for tracing and writing numerals. A section of connect-the-dot games provides more motor skills development along with helping children learn the order of alphabet, while fill-in-the-blank games reinforce alphabet learning in a different way and provide more practice in writing the missing letters. My BIG Book of Writing! is a versatile tool that can help children who are struggling with writing skills to work at a comfortable level, as well as assisting those for whom writing comes more easily to experience the multitrack learning their developing minds are hungry to absorb. Whatever level a child is at, the activities and exercises in this workbook will stimulate the learning process and prepare him or her for reading and other learning challenges ahead.
