including the award for Textbook Excellence by the Text and Academic Authors Association and the award for Illustration Excellence by the Association of Medical Illustrators. The fourth edition continues this tradition of textbook excellence. Innovative pedagogical elements and a tightly integrated supplements package make this new edition an excellent choice for all anatomy courses.

This brief, paperback version of the best-selling Earth Science by Lutgens and Tarbuck is designed for introductory courses in

Earth science. The text's highly visual, non-technical survey emphasizes broad, up-to-date coverage of basic topics and principles in geology, oceanography, meteorology, and astronomy. A flexible design lends itself to the diversity of Earth science courses in both content and approach. As in previous editions, the main focus is to foster student understanding of basic Earth science principles. Used by over 1.5 million science students, the Mastering platform is the most effective and widely used online tutorial, homework, and assessment system for the sciences.
