Imtiaz Sooliman and the Gift of the Givers by Morton, Shafiq. Imtiaz Sooliman, a medical doctor practising in Pietermaritzburg, South Africa, visited a Shaikh in Istanbul in 1992.

Imtiaz Sooliman, a medical doctor practising in Pietermaritzburg, South Africa, visited a Shaikh in Istanbul in 1992. The Sufi teacher gave him a message that would dramatically change the lives of countless people. 'To my absolute astonishment he told me I would help people for the rest of my life. He then instructed me to form a humanitarian organisation called the "Gift of the Givers", and repeated the phrase "the best among people are those who benefit mankind".' Almost 30 years later Gift of the Givers, Africa's largest humanitarian and disaster agency, has a reputation for speedy responses to floods, war, famine, fires, tsunamis, kidnapping and earthquakes. Well known for their interventions in South African and international disasters, teams of volunteers have undertaken missions to places such as Bosnia, Palestine, Japan, Haiti, Indonesia, Malawi and Mozambique. They have put up hospitals, run clinics,

dug wells, drilled boreholes, built houses, offered scholarships and provided shelter, food and psychological succour to millions.

THE EXTRAORDINARY STORY OF THE LONGEST-HELD AL QAEDA CAPTIVE IN THE WORLD Stephen McGown was en route from London to South Africa, on a once-in-a-lifetime trip by motorbike, returning home to Johannesburg. He had reached Timbuktu, in Mali, when he was captured, along with a Dutch and a Swedish national, by Al Qaeda Islamist militants. Steve was taken because he held a British passport. He was subsequently held hostage at various camps in the Sahara Desert in the north-west of Africa for nearly six years before eventually being released. Life as Steve had known it changed in that instant that he was taken at gunpoint. He had nothing to bargain with, and everything to lose. For the next six years, he reluctantly engaged in what he came to call the greatest chess game of his life. Thousands of kilometres to the south, in Johannesburg, the shock of Stephen's capture struck the McGown family and his wife, Cath, with whom he had, until recently, been living in London. They immediately began efforts to secure Steve's release, through diplomatic channels and in every other way they felt might have a chance of seeing Stephen freed. But as the months of captivity became years, Steve was compelled to go to extraordinary lengths to survive. Making it back home alive became his sole aim. To accomplish this, he realised that he would have to do everything he could to raise his status in the eyes of his captors. To this end, he taught himself Arabic and French, and also converted to Islam, accepting a new name, Lot. To this day, Steve retains the unenviable record of being the longest-held, surviving prisoner of Al Qaeda. While he was undoubtedly always Al Qaeda's captive, through the long years he spent in intimate proximity to his captors, Steve got to see the Islamist militants as few other Westerners have ever seen them. Six Years a Hostage is not only a remarkable story of mental strength, physical endurance and the resilience of the human spirit, but also, significantly, a unique and

nuanced perspective on one of the world's most feared terrorist groups. Steve did not merely survive his terrible ordeal; he emerged from the desert a changed - stronger, more positive - human being. This is Stephen McGown's remarkable story, as told to Tudor Caradoc-Davies, a freelance writer, editor and author based in Cape Town, South Africa. After seven years spent working for glossy magazines such as Men's Health, GQ, Best Life and Women's Health, he now contributes to a range of publications. He also writes for the (South African) Sunday Times, and Red Bulletin.

From the author of *The Aftermath* comes the story of a whirlwind friendship--and the dark secrets lurking beneath it. After a tumultuous marriage, Mary Wilson is happy in her uncomplicated life, focusing on her twelve-year-old son. She's always been content with her little family--but then she finds an old postcard that throws her whole past into question... When an invitation arrives for her high school reunion, Mary jumps at the chance of a distraction from the shock discovery, and meeting her old classmate April feels like a gift. Despite barely remembering April, Mary throws herself into the new friendship and finds her previously quiet social life reinvigorated. But as the bonds between them are forged, Mary finds herself drawn further and further into April's life and marriage, increasingly fearing that everything is not as perfect as it seems. Is her own painful past clouding her judgement, or is Mary right to suspect that the people she trusts most are the ones with the most to hide?

A man is travelling to Africa from Europe. And yet it is also about waiting waiting for Africa. Volker, a German, leaves his home in Frankfurt for Windhoek. He leaves a lover, he is leaving for a long

time, and he does not have a return ticket. He does not know anything about Africa, to him it is one country, not a continent, neither does he really know where he is going to; he just knows that he wants to leave Europe. Lufthansa, the airline that carries him stops at Charles de Gaulle airport and here he waits and waits and waits. And in the airport he observes and describes and thinks. The text is a stream of consciousness, Volkers thoughts. Interspersed with this are stories of people he encounters in the airport; a murderer, a terrorist, a person with dwarfism, a trans woman, a porn star, a terrorist, a child trafficker, a paedophile. All are connected, with each other, with Volker and with us, the readers. Adairs novel is innovative in form, self-conscious and self-critical; it challenges conventional Western assumptions that all good novels have a clear story line, a good plot and fully rounded characters.

If stakeholders matter on projects, then they must make a difference to the way we plan, structure, and execute projects. This book provides a stakeholder-centric analysis of projects, and explains which engagement models are relevant to different types of projects—from simple office moves to IT enterprise changes, to transformational change of a business, and to complex social development. With case studies from around the world, the book illustrates what goes wrong when stakeholders are not engaged successfully, what amazing things happen when they are, and what lessons can be learned from both experiences. Cases drawn from a variety of contexts are used to demonstrate the application of stakeholder tools, leaving the reader with a very practical understanding of which techniques may be beneficially applied to their own projects. Key models introduced include the following:

- The stakeholder-neutral to stakeholder-led project continuum
- Role-based and agenda-based stakeholders
- Purposeful communication—the 6-why model for communication
- Power and influence in projects
- The six principles of stakeholder engagement.

This book is intended for project managers and those

project staff involved in the engagement of stakeholders to deliver successful project outcomes.

“ Murderer, murderer! You are under arrest. ” The shock of being arrested at Dubai Airport was almost too much for the ailing 77-year-old Professor Cyril Karabus, a world-renowned paediatric oncologist en route home to Cape Town with his wife and family after attending his son ’ s wedding in Toronto. Without his knowledge, Prof Karabus had been tried in absentia in 2004 in Abu Dhabi and found guilty of manslaughter after the death of a three-year-old Yemeni girl who had died from acute myeloblastic leukaemia. Prof Karabus had served a locum in the United Arab Emirates in 2002 when this death occurred. Charges were trumped up against him by the child ’ s father, who demanded blood money – which, according to Sharia law, is only payable after a criminal conviction – despite the fact that the girl was not even Prof Karabus ’ s patient. This is the engrossing story of Cyril Karabus ’ s fight to prove his innocence and secure his release from jail in the UAE, where he was confined for nine months. It also lifts the lid on all the extraordinary behind-the-scenes attempts and manoeuvres to free the doctor.
