"The story of the Cherokee removal has been told many times, but never before has a single book given us such a sense of how it happened and what it meant, not only for Indians, but also for the future and soul of America." —The Washington Post Five decades after the Revolutionary War, the United States approached a constitutional crisis. At its center stood two former military comrades locked in a struggle that tested the boundaries of our fledgling democracy. One man we recognize: Andrew Jackson—war hero, populist, and exemplar of the

expanding South—whose first major initiative as president instigated the massive expulsion of Native Americans known as the Trail of Tears. The other is a half-forgotten figure: John Ross—a mixed-race Cherokee politician and diplomat—who used the United States' own legal system and democratic ideals to oppose Jackson. Representing one of the Five Civilized Tribes who had adopted the ways of white settlers, Ross championed the tribes' cause all the way to the Supreme Court, gaining allies like Senator Henry Clay, Chief Justice John Marshall, and even Davy Crockett. allies made their case in the media, committed civil disobedience, and benefited from the first mass political action by American women. Their struggle contained ominous overtures of later events like the Civil War and defined the political culture for much that followed. Jacksonland is the work of renowned journalist Steve Inskeep, cohost of NPR's Morning Edition, who offers a heart-stopping narrative masterpiece, a tragedy of American history that feels ripped from the headlines in its immediacy, drama, and relevance to our lives. their homelands for the unknown. Following the tradition of Christo, and inspired by installation artist Andy Goldsworthy, Musick and her crew created an art installation. It is an eye-catching piece of art featuring five yokes that combine oak, wood, steel, and native Ozark sandstone, designed to represent the struggle of those who took the brutal journey. The installation traveled to twenty-two stops along the Benge Route across northern Arkansas, the actual route taken by some of the Cherokees in 1838. Musick and her crew moved the installation to each spot

along the Trail of Tears; sometimes using the wagon ruts or other physical remains still present to guide their way. Time was spent in each area, meeting locals, setting up, photographing, and moving on, as ephemeral as the Cherokee's journey itself. This book chronicles the journey, with full color photos, poetry (Musick imagines a young Cherokee mother making the trip with her child), maps, journal entries, and introductory essays on art and history. This is a beautiful and powerful portrayal of the strength, courage, and perseverance of the Cherokee
