National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included: new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Because the subject for historic building interiors is so diverse, this annotated bibliography is not comprehensive, but selective in nature, and thus, may not list all of the references published on a specific topic. Includes those publications that are generally available in print or readily accessible in libraries. Covers: general and historical studies; conservation and maintenance; paint; plaster; metals; textiles; wallcoverings; floors and floor coverings; and wood. Also, includes systems and fixtures; rehabilitation case studies; inspection, evaluation and planning; and safety, fire protection, building codes and accessibility.

Devoted entirely to textiles for interiors, Textiles for Residential and Commercial Interiors, 4th Edition, focuses on the most current fiber and fabric information including new fiber technology and nanofibers, the role of the interior designer in selecting textiles, and the environmental impact of textiles.
