Intermediate Accounting presents accounting from the perspective of the essential activities of business: operating, investing, and financing. Students will see accounting as it is in the real world -- an essential component of the management function and decision-making process.

This text presents accounting from the perspective of the essential activities of business: operating, investing and financing. Learners should see accounting as it is in the real world - an essential component of the management function and decision-making process.

Study the central activities of a business, including today's hot topics, to learn accounting principles! INTERMEDIATE ACCOUNTING presents a user/decision-making approach, combined with the necessary coverage of GAAP, to help you understand accounting in terms of what goes on in an actual business. The text's efficient format is not overwhelming, and it blends the core concepts of accounting principles with procedural applications. An expansive set of end-of-chapter material helps you prepare for exams. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Study Guide is designed to assist students in comprehending the concepts and principles presented in the text. Problems and brief questions are included.
