Case Studies. A collaborative effort of the Anti-Fraud Collaboration, these case studies are educational tools for all members of the financial reporting supply chain, as well as students. Participants in case study teachings start with a hypothetical scenario about a fictional company dealing with a fraud. Guided by an instructor, they then discuss what could have been done to address the situation.

The research design and methodology for the study was qualitative. Data was collected using the case study approach, wherein on the one hand, one-on-one interviews with senior managers were conducted and on the other, open-ended questionnaires were completed by junior managers. This article<sup>1</sup> suggests that, if all the necessary conditions under which an internal audit function can promote ethics in the profession, are not in place, the function itself also fails in improving ethical ...

development of professionalism in internal auditing. Built on the foundations of Jeffrey Ridley's extensive internal auditing experience across the public and private sectors, the author uses his articles and research to explore and develop the motivations, goals and categories of innovation in internal auditing today. It develops and brings up to date an imaginative internal auditing model, created and used by the author in the early 1980s, drawing on research and guidance by The Institute of Internal Auditors Inc., its Research Foundation and the Institute of Internal Auditors - UK and Ireland. Each chapter stands alone by focusing on an individual internal auditing theme, considered from both the perspective of internal auditing and its customers to suggest an appropriate vision as a goal for every internal audit activity. Each chapter also includes self-assessment questions to challenge the readers understanding of
