The idea for putting  
together a tutorial on  
zeolites came

originally from my co-  
editor, Eric Derouane,  
about 5 years ago. I

first met Eric in the  
mid-1980s when he  
spent 2 years working  
for Mobil R&D at our  
then Corporate lab at  
Princeton, NJ. He was  
on the senior

File Type PDF

Isi Chimica

Technical staff with  
projects in the  
synthesis and  
characterization of  
new materials. At that  
time, I managed a  
group at our  
Paulsboro lab that  
was responsible for  
catalyst  
characterization in  
support of our catalyst  
and process  
development efforts,

File Type PDF

Isi Chimica

Strumentale Per  
Gruppi Tecnici E  
Professionali  
and also had a  
substantial group  
working on new  
material synthesis.

Hence, our interests  
overlapped  
considerably and we  
met regularly. After  
Eric moved back to  
Namur (initially), we  
maintained contact,  
and in the 1990s, we  
met a number of  
times in Europe on

File Type PDF

Isi Chimica

projects of joint Per  
interest. It was after I  
retired from E  
ExxonMobil in 2002  
that we began to  
discuss the tutorial  
concept seriously.

Eric had (semi-)retired  
and lived on the  
Algarve, the southern  
coast of Portugal. In  
January 2003, my  
wife and I spent 3  
weeks outside of

File Type PDF

Isi Chimica

Lagos, and I worked parts of most days with Eric on the proposed content of the book. We decided on a comprehensive approach that ultimately amounted to some 20+ chapters covering all of zeolite chemistry and catalysis and gave it the title Zeolite Chemistry and
