ISMAEL IVO Ismael Ivo was born in 1955 in São Paulo. São Paulo, New York and Berlin are considered the outstanding stages of his career. He studied acting and dance in his hometown, winning awards as best solo dancer in 1979, 1981, 1982.

Beyond Slavery traces the enduring impact and legacy of the African diaspora in Latin America and the Caribbean in the modern era. In a rich set of essays, the volume explores the multiple ways that Africans have affected political, economic, and cultural life throughout the region. Focusing on areas traditionally associated with Afro-Latin American culture such as Brazil and the Caribbean basin, this innovative work also highlights places such as Rio de La Plata and Central America, where the African legacy has been important but little studied. The contributors engage readers interested in the African diaspora in a series of vigorous debates ranging from agency and resistance to transculturation, displacement, cross-national dialogue, and popular culture. Documenting the array of diverse voices of Afro-Latin Americans throughout the region, this interdisciplinary book brings to life both their histories and contemporary experiences. Contributions by: Aviva Chomsky, Darién J. Davis, Dario Euraque, Sujatha Fernandes, David Geggus, Aline Helg, Ricardo D. Salvatore, Eduardo Silva, Jason Stanyek, Camilla Townsend, Bobby Vaughn, Ben Vinson III, and Judith Michelle Williams

This book explores the productive effects of bodily 'failure' in the sphere of visibility. The aim is to reflect on the human body's constant exposure to visual constraints and distortions, which are incorporated so strongly in everyday images of our bodies that they become invisible, while yet representative of cultural norms. By analyzing artistic literary and visual representations of imperfect, disabled, aging, queer, and monstrous bodies, this project exposes the »handicaps« of normative vision and opens up new ways of recognizing a multitude of corporeal existences and practices outside the norm.

The Routledge Companion to Butoh Performance provides a comprehensive introduction to and analysis of the global art form butoh. Originating in Japan in the 1960s, butoh was a major innovation in twentieth century dance and performance, and it continues to shape-shift around the world. Taking inspiration from the Japanese avant-garde, Surrealism, Happenings, and authors such as Genet and Artaud, its influence can be seen throughout contemporary performing arts, music, and visual art practices. This Companion places the form in historical context, documents its development in Japan and its spread around the world, and brings together the theory and the practice of this compelling dance. The interdisciplinarity evident in the volume reflects the depth and the breadth of butoh, and the editors bring specially commissioned essays by leading scholars and dancers together with translations of important early texts.

This comprehensive and up-to-date dictionary provides all the information necessary for dance fans to navigate the diverse dance scene of the 21st century. It includes entries ranging from classical ballet to the cutting edge of modern dance.

The Oxford Handbook of Screendance Studies offers a full overview of the histories, practices, and critical and theoretical foundations of the rapidly changing landscape of screendance. Drawing on their practices, technologies, theories, and philosophies, scholars from the fields of dance, performance, visual art, cinema and media arts articulate the practice of screendance as an interdisciplinary, hybrid form that has yet to be correctly sited as an academic field worthy of critical investigation. Each chapter discusses and reframes current issues, as a means of promoting and enriching dialogue within the wider community of dance and the moving image. Topics addressed embrace politics of the body; agency, race, and gender in screendance; the relationship of choreography to image; constructs of space and time; representation and effacement; production and curatorial practice; and other areas of intersecting disciplines. The Oxford Handbook of Screendance Studies features newly-commissioned and original scholarship that will be essential reading for all those interested in the intersection of dance and the moving image, including film and video-makers, dance artists, screendance artists, academics and writers, producers, composers, as well as the wider interested public. It will become an invaluable resource for researchers and professionals in the field.

This ... sourcebook charts ... postwar Germany's irrevocable transformation into a multiethnic immigration country. More than 200 original German texts in English translation illuminate highly contentious debates about citizenship, human rights, multiculturalism, and globalization during the past fifty years - debates that resonate far beyond the country's borders. The book's eleven chapters cover incisive discussions about guest workers, foreigners in East Germany, xenophobia and racism, religion, literature, film, and everyday culture. Juxtaposing voices that range from statesmen and journalists to activists and artists, the collection chronicles utopian visions, violent setbacks, and unexpected consequences. It writes a cultural history of migration in documents.
