When prolific writers compile a decade or more of their writing in a single collection, changes in style, political outlook, or interpretive tendencies are readily apparent. Consistency in all these respects is visible too. So it ' s interesting to read Avi Shlaim ' s latest book — Israel and Palestine: Reappraisals, Revisions, Refutations, a collection of articles published over two decades on Israeli historiography — because he is aware of the changes and continuities in his thinking.

Book review: Avi Shlaim's "Israel and Palestine" | The ...

Israel and Palestine: Reappraisals, Revisions, Refutations by Avi Shlaim. With characteristic rigor and readability, Avi Shlaim reflects on a range of key issues, transformations and personalities in the Israel-Palestine conflict. From the 1917 Balfour Declaration to the failure of the Oslo peace process, from the 1948 War to the 2008 invasion of Gaza, Israel and Palestine places current events in their proper historical perspective.

Israel and Palestine By Avi Shlaim | Used | 9781844676569 ...

Israeli governments usually oppose a Palestinian state and a return to its 1967 borders, even though, as Shlaim argues, ending the occupation of the West Bank would enhance Israel's security. The Oslo Accord, negotiated by Israelis and Palestinians, with virtually no US or EU involvement, was a great step forward towards creating a Palestinian state.

An Oxford professor reflects on key issues and contributing factors shaping the Israeli-Palestine conflict, providing comprehensive coverage of topics ranging from the 1917 Balfour Declaration and the failure of the Oslo peace process to the 1948 War and the 2008 invasion of Gaza. By the author of *The Iron Wall*.

The June 1967 war was a watershed in the history of the modern Middle East. In six days, the Israelis defeated the Egyptian, Syrian and Jordanian armies, seizing large portions of their territories. Two veteran scholars of the Middle East bring together some of the most knowledgeable experts in their fields to reassess the origins and the legacies of the war. Each chapter takes a different perspective from the vantage point of a different participant, those that actually took part in the war and also the world powers that played important roles behind the scenes. Their conclusions make for sober reading. At the heart of the story was the incompetence of the Egyptian leadership and the rivalry between various Arab players who were deeply suspicious of each other's motives. Israel, on the other side, gained a resounding victory for which, despite previous assessments to the contrary, there was no master plan.

“ Fascinating. . . . Shlaim presents compelling evidence for a reevaluation of traditional Israeli history. ” —New York Times Book Review For this newly expanded edition, Avi Shlaim has added four chapters and an epilogue that address the prime ministerships from Barak to Netanyahu in the “ one book everyone should read for a concise history of Israel ' s relations with Arabs ” (Independent). What was promulgated as an “ iron-wall ” strategy—building a position of unassailable strength— was meant to yield to a further stage where Israel would be strong enough to negotiate a satisfactory peace with its neighbors. The goal still remains elusive, if not even further away. This penetrating study brilliantly illuminates past progress and future prospects for peace in the Middle East.

Avi Shlaim's *The Iron Wall: Israel and the Arab World* is the outstanding book on Israeli foreign policy, now thoroughly updated with a new preface and chapters on Israel's most recent leaders In the 1920s, hard-line Zionists developed the doctrine of the 'Iron Wall': negotiations with the Arabs must always be from a position of military strength, and only when sufficiently strong

Israel would be able to make peace with her Arab neighbours. This doctrine, argues Avi Shlaim, became central to Israeli policy; dissenters were marginalized and many opportunities to reconcile with Palestinian Arabs were lost. Drawing on a great deal of new material and interviews with many key participants, Shlaim places Israel's political and military actions under and uncompromising lens. His analysis will bring scant comfort to partisans on both sides, but it will be required reading for anyone interested in this fascinating and troubled region of the world. 'The Iron Wall is strikingly fair-minded, scholarly, cogently reasoned and makes enthralling ... reading' Philip Ziegler, Daily Telegraph 'Anyone wanting to understand the modern Middle East should start by reading this elegantly written and scrupulously researched book' Trevor Royle, Sunday Herald 'A milestone in modern scholarship of the Middle East' Edward Said 'Fascinating ... Shlaim presents compelling evidence for a reevaluation of traditional Israeli history' Ethan Bronner, The New York Times Book Review Avi Shlaim is Professor of International Relations at St. Antony's College, Oxford. His previous books include *Collusion Across the Jordan* (1988) and *War and Peace in the Middle East* (1995).

Since its foundation in 1948, Israel has drawn on Zionism, the movement behind its creation, to provide a sense of self and political direction. In this groundbreaking new work, Ilan Pappé looks at the continued role of Zionist ideology. *The Idea of Israel* considers the way Zionism operates outside of the government and military in areas such as the country's education system, media, and cinema, and the uses that are made of the Holocaust in supporting the state's ideological structure. In particular, Pappé examines the way successive generations of historians have framed the 1948 conflict as a liberation campaign, creating a foundation myth that went unquestioned in Israeli society until the 1990s. Pappé himself was part of the post-Zionist movement that arose then. He was attacked and received death threats as he exposed the truth about how Palestinians have been treated and the gruesome structure that links the production of knowledge to the exercise of power. *The Idea of Israel* is a powerful and urgent intervention in the war of ideas concerning the past, and the future, of the Palestinian – Israeli conflict.

The first major account of the life of an extraordinary soldier and statesman, King Hussein of Jordan. Throughout his long reign (1953—1999), Hussein remained a dominant figure in Middle Eastern politics and a consistent proponent of peace with Israel. For over forty years he walked a tightrope between Palestinians and Arab radicals on the one hand and Israel on the other. Avi Shlaim reveals that Hussein initiated a secret dialogue with Israel in 1963 and spent hundreds of hours in talks with countless Israeli officials. Shlaim expertly reconstructs this dialogue from previously untapped records and first-hand accounts, significantly rewriting the history of the Middle East over the past fifty years and shedding light on the far-reaching impact of Hussein's leadership.

This book is an account of the highly secret relationship between Abdullah, the Hashemite ruler of Jordan, and the Zionist movement. Spanning three decades, from the appointment of Abdullah as Emir in 1921 to his assassination in 1951, this work focuses on the clandestine diplomacy and the political and military processes which determined the fate of Palestine between 1947 and 1950, and which left the Palestinian Arabs without a homeland.

Traditionally, American Jews have been broadly liberal in their political outlook; indeed African-Americans are the only ethnic group more likely to vote Democratic in US elections. Over the past half century, however, attitudes on one topic have stood in sharp contrast to this group's generally progressive stance: support for Israel. Despite Israel's record of militarism, illegal settlements and human rights violations, American Jews have, stretching back to the 1960s, remained largely steadfast supporters of the Jewish "homeland." But, as Norman Finkelstein explains in an elegantly-argued and richly-textured new book, this is now beginning to change. Reports by Human Rights Watch, Amnesty International and the United Nations, and books by commentators as prominent as President Jimmy Carter and as well-respected in the scholarly community as Stephen Walt, John Mearsheimer and Peter Beinart, have increasingly pinpointed the fundamental illiberalism of the Israeli state. In the light of these exposes, the support of American Jews for Israel has begun to fray. This erosion has been particularly marked among younger members of the community. A 2010 Brandeis University poll found that only about one quarter of Jews aged under 40 today feel "very much" connected to Israel. In successive chapters that combine Finkelstein's customary meticulous research with polemical brio, *Knowing Too Much* sets the work of defenders of Israel such as Jeffrey Goldberg, Michael Oren, Dennis Ross and Benny Morris against the historical record, showing their claims to be increasingly tendentious. As growing numbers of American Jews come to see the speciousness of the arguments behind such apologies and recognize Israel's record as simply indefensible, Finkelstein points to the opening of new possibilities for political advancement in a region that for decades has been stuck fast in a gridlock of injustice and suffering.

A re-examination of the Arab-Israeli war of 1948 written by leading Arab, Israeli and western scholars.
