customers  
Recovery

## Planning For

IT Disaster Recovery  
Planning: A Template

A disaster recovery plan (DRP) is a documented, structured approach that describes how an organization can quickly resume work after an unplanned incident. A DRP is an essential part of a

# Online Library It Disaster

business continuity plan ( BCP ). It is applied to the aspects of an organization that depend on a functioning IT infrastructure.

What is a Disaster Recovery Plan (DRP) and How Do You ...  
Structurally, disaster recovery plans are highly flexible so that

# Online Library It Disaster

Recovery and restoration efforts can be improvised and adapted to unexpected developments. This is essential as any hazardous occurrence is erratic by nature and the variables that influence its progression can never be accurately forecasted.

# Online Library It Disaster Recovery

Disaster Recovery  
Plan (DRP) | IT

Disaster Recovery ...

The objective of a disaster recovery plan is to ensure that you can respond to a disaster or other emergency that affects information systems and minimize the effect on the operation of the

# Online Library It Disaster

business. When you have prepared the information described in this topic collection, store your document in a safe, accessible location off site.

Example: Disaster recovery plan - IBM

- When putting your disaster recovery plan in writing, divide your applications into three
