With 5.6 million spas and hot tubs in the United States (260,000 installed last year alone) service technicians and do-it-yourselfers have been clamoring for a practical user-friendly guide to demystify the purchase, repair, installation, and everyday maintenance of spas and tubs. And here it is. This first-ever book on the subject utilizes easy-to-follow photos and text to walk the reader through every necessary procedure--purchasing, installing, heating, winterizing, understanding water chemistry, troubleshooting and repair, automatic cleaning, decks and enclosures, enhancements, and much more. * Tricks of the Trade: special insider tips throughout the book speed and simplify each task * Tools of the Trade: a parts and tools list for each procedure makes preparation simple and assures success * A complete resource guide listing websites, manufacturers, sources of cost-saving generic replacement parts, and more * Realistic cost estimates of components, equipment, and upgrades makes anyone an educated shopper * Quick Start Guides: a short, summarized list for each common task helps the reader start right and finish quickly * All data and measurements presented in both English and standard metric dimensions for use in any country

Volume I is the first of two volumes that document the three components of the CHILDES Project. It is divided into two parts which provide an introduction to the use of computational tools for studying language learning. The first part is the CHAT manual, which describes the conventions and principles of CHAT transcription and recommends specific methods for data collection and digitization. The second part is the CLAN manual, which describes the uses of the editor, sonic CHAT, and the various analytic commands. The book will be useful for both novice and experienced users of the CHILDES tools, as well as instructors and students working with transcripts of child language. Volume II describes in detail all of the corpora included in the CHILDES database. The conversational interactions in the corpora come from monolingual children and their caregivers and siblings, as well as bilingual children, older school-aged children, adult second-language learners, children with various types of language disabilities, and aphasic recovering from language loss. The database includes transcripts in 26 different languages. The CD-ROM that accompanies these volumes includes the transcript files described in Volume II. It runs on both Windows and Macintosh platforms. For more information or updates to the files, visit the CHILDES Web site at <http://childes.psy.cmu.edu>
