A portrait of Neil Diamond, and what he means to his fans, told by a journalist who has interviewed the "Jewish American Elvis."

This is the author's account of his near death and recovery from injuries received in the crash of his seaplane, Puff, in 2012.

In this tender-hearted debut, set against the tumultuous backdrop of life in 1973, when homosexuality is still considered a mental illness, two boys defy all the odds and fall in love. The year is 1973. The Watergate hearings are in full swing. The Vietnam War is still raging. And homosexuality is still officially considered a mental illness. In the midst of these trying times is sixteen-year-old Jonathan Collins, a bullied, anxious, asthmatic kid, who aside from an alcoholic father and his sympathetic neighbor and friend Starla, is completely alone. To cope, Jonathan escapes to the safe haven of his imagination, where his hero David Bowie's Ziggy Stardust and dead relatives, including his mother, guide him through the rough terrain of his life. In his alternate reality, Jonathan can be anything: a superhero, an astronaut, Ziggy Stardust, himself, or completely "normal" and not a boy who likes other boys. When he completes his treatments, he will be normal—at least he hopes. But before that can happen, Web stumbles into his life. Web is everything Jonathan wishes he could be: fearless, fearsome and, most importantly, not ashamed of being gay. Jonathan doesn't want to like brooding Web, who has secrets all his own. Jonathan wants nothing more than to be "fixed" once and for all. But he's drawn to Web anyway. Web is the first person in the real world to see Jonathan completely and think he's perfect. Web is a kind of escape Jonathan has never known. For the first time in his life, he may finally feel free enough to love and accept himself as he is. A poignant coming-of-age tale, Ziggy, Stardust and Me heralds the arrival of a stunning and important new voice in YA.

Richard Bach's first book, Stranger to the Ground is above all else an insight into the character of a man whose great compulsion is to measure himself against storm and night and fear. On the surface it is the tale of a memorable mission of a young fighter pilot utilizing his skills in a lonely duel with death. Yet between the lines emerges the portrait of the airman as a breed, probing outward, but even more significantly, inward.

In the cloud-washed airspace between the cornfields of Illinois and blue infinity, a man puts his faith in the propeller of his biplane. For disillusioned writer and itinerant barnstormer Richard Bach, belief is as real as a full tank of gas and sparks firing in the cylinders...until he meets Donald Shimoda—former mechanic and self-described messiah who can make wrenches fly and Richard's imagination soar.... In Illusions, the unforgettable follow-up to his phenomenal bestseller Jonathan Livingston Seagull, Richard Bach takes to the air to discover the ageless truths that give our souls wings: that people don't need airplanes to soar...that even the darkest clouds have meaning once we lift ourselves above them... and that messiahs can be found in the unlikelyst places—like hay fields, one-traffic-light midwestern towns, and most of all, deep within ourselves.

Sure, you know about chicken soup, but do you know about a souped-up chicken? Jonathan Segal Chicken was just another piece of kosher poultry, but he decided he wanted something more. He wanted to fly, and fly he did, on adventures that take him out into the world... and beyond. This classic parody from the 1970s is now available again in this newly redesigned edition.

In his latest novel One, phenomenally bestselling author Richard Bach asks the questions—what if we could meet the people we are destined to be in twenty years? What if we could confront the people we were in the past, and those we are right now in parallel lifetimes, in alternate worlds?

Fifty years after promising—and forgetting—to come back through time and teach himself what he has learned about life, Richard meets nine-year-old Dickie Bach, who reminds him of the promise

A biography of one of the biggest popular music composers and performers of the 1960's and 1970's whose music for the movie, "Jonathan Livingston Seagull," became the largest selling original sound trek album in history.
