NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, The Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author " Sharp, provocative, and useful. "—Jim Collins " Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good. "—Financial Times " A flat-out great read. "—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity " You ' ll never look at yourself, your organization, or your world quite the same way. "—Daniel H. Pink, bestselling author of Drive and A Whole New Mind " Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change. "—The New York Times Book Review

Maps and descriptions for more than 200 Pennsylvania waterways. Information on minimum water levels, potential hazards, and difficulty level of each stream. Includes directions and recommendations for put-in and take-out at each site.

In this magnificently illustrated book, conservationist and celebrated outdoors photographer Tim Palmer launches us on a revealing journey among the hemlock and beech trees that have for millennia towered over America 's eastern woodlands. The eastern hemlock and North American beech once thrived from Maine to Georgia, casting shade on trout streams, nourishing wildlife large and small, and gracing uncounted valleys, mountainsides, parks, and backyards. These trees now face tragic decimation by exotic insects and pathogens. Palmer 's photos record the splendor of the cherished hemlock and beech in the same way that pictures of iconic, historic buildings commemorate classic landmarks gone the way of the wrecking ball. And yet, as Palmer underscores in his final chapter, the lessons learned as we address the fate of these trees can help us chart a better course for all wooded landscapes in the years ahead. This story of loss, scientific inquiry, and prospective recovery is vital to understanding nature in our time. As an act of artistic preservation, a report on the science vital to the survival of these trees, and a call to action, Twilight of the Hemlocks and Beeches assures a lasting legacy for this irreplaceable forest community. With more than one hundred exquisite full-color photographs, this book is a must-have for outdoor enthusiasts, natural historians, ecologists, and all lovers of nature.
