Kiffe Kiffe Tomorrow by Faiza Guène. It's Monday and, like every Monday, I've been over at Madame Burlaud's. Madame Burlaud's old, she's ugly and she stinks of RID anti-lice shampoo. She's harmless, but sometimes she worries me. Today, she took a whole bunch of weird pictures out of her bottom drawer, these huge stains that looked like dried vomit. She asked me what they made me ...

A "touching, furious, sharp, and very funny" novel of an immigrant teenage girl finding her own identity in France (Booklist). The Paradise projects are only a few metro stops from Paris, but it feels like a different world. Doria's father, aka the Beard, has headed back to their hometown in Morocco, leaving her and her mom to cope with their mektoub, their destiny, alone. They have a little help—from a social worker sent by the city, a psychiatrist sent by the school, and a thug friend who recites Rimbaud. It seems like fate has dealt them an impossible hand, but Doria might still make a new life—"with bravado, humor, and a healthy dose of rage" (St. Petersburg Times). "[A] sassy, spunky tale . . . Doria has what it takes to storm any barricade." —The Hartford Courant "[Doria is] as likable as Holden Caulfield or Prep's Lee Fiora. Readers will cheer. Highly recommended." —Library Journal, starred review "A promising addition to the world's literary voices." —The Miami Herald "Moving and irreverent, sad and funny, full of rage and intelligence. Her voice is fresh, and her book a delight." —Laila Lalami, bestselling author of The Moor's Account

Struggling with an overworked mother, an absent father, and the challenges of life within the infamous Paradise projects of suburban Paris, fifteen-year-old French Muslim Doria endures a parade of social workers, experiences a first kiss, and assumes a philosophical outlook regarding her circumstances. A first novel. Original. 75,000 first printing.

A novel of a twentysomething, Algerian-born woman living on the edge in France, from "one of the hottest literary talents of multicultural Europe" (Sunday Telegraph). When Ahlème's mother was killed in a village massacre, she left Algeria for France with her father and brother and never returned. Now, more than a decade later, she is practically French, yet in many ways she remains an outsider. Ahlème's dreams for a better life have been displaced by the harsh realities she faces every day. Her father is unable to work after an accident at his construction site and her brother boils over with adolescent energy, teetering dangerously close to choosing a life of crime. As a temporary resident, Ahlème could at any moment be sent back to a village and a life that are now more foreign than Paris. In *Some Dream for Fools*, Faiza Guène explores the disparity between the expectations and limitations of immigrant life in the West and tells a remarkable story of one woman's courage to dream. "With a keen eye for detail and a sharp narrative tone, [Guène] gives voice to a hurt too long unrecognized. . . . [She] takes us into another world—a world that no nation today can afford to ignore." —The Christian Science Monitor

Fifteen-year-old Doria isn't in a good place. Or to be precise: she's in the sadly misnamed Paradise Estate on the outskirts of Paris. Her father has gone off back Morocco to find a wife who can give him a boy, and her illiterate, non French-speaking mother is having to fend for herself with a cleaning job in a grim motel. What's more, her favourite soap star has turned out to be gay and it looks like the only school that is going to accept Doria is the one for future hairdressers. Still, it could be worse: Doria could be like Samra, the girl in the flat above, whose father doesn't let her out, or Youssef who has been banged up for a year for dealing in drugs and stolen cars. At least Hamoudi - twenty-eight and the coolest guy on the estate - is her friend. And at least she gets a free weekly session with psychologist Mrs Burland, who is about the only person who listens, even if she doesn't quite understand... In this fabulous first novel, Faiza Guene has created an unforgettable voice. Doria is both clued up and

innocent, acutely aware of what's in store for her and powerless to change it. She is funny, clever and tragically trapped. But in the end, her dogged determination not to be down-trodden and humiliated wins through and it looks like things can only get better.

A tender and refreshing tale of family life, clashing cultures and belonging in France.

Lou Bertignac has an IQ of 160 and a good friend called Lucas, who gets her through the school day. At home her father cries in secret in the bathroom and her mother hasn't been out of the house properly for years. But Lou is about to change her life - and that of her parents - for good, all because of a school project she decides to do about the homeless. Through the project Lou meets No, a teenage girl living on the streets. As their friendship grows, Lou cannot bear that No is still on the streets when she goes back home - even if it is to a home that is saddened and desolate. So she asks her parents if No can come to live with them. To her astonishment, her parents - eventually - agree. No's presence forces Lou and her parents to finally face the sadness that has enveloped them. But No has disruptive as well as positive effects. Can this shaky newfound family continue to live together? A tense, brilliant novel tackling the true meaning of home and homelessness.

Joel, aka 'The Rink' (because his bald patch is shiny enough to skate on), the unpopular owner of the only bar in town has been murdered. There are so many suspects, it's not so much a question of who did kill him as who didn't. There's Magalie, the temperamental teenager obsessed with Paris Hilton; her troublemaker boyfriend, Tani; Tani's mother, Madame Levi; her unemployed, daytime-TV addicted husband; Yeznig, their younger son, who has learning difficulties but perfect memory recall; and newcomers Ali and Nadia, the Muslim twins struggling to fit in. As the tension mounts and we're still none the wiser, the ending is as tragic as it is unexpected.

A powerful examination of the artistic impulse, cultural identity, and family bonds Anita is waiting for Adam to be released from prison. They met twenty years ago at a New Year's Eve party in Paris, a city where they both felt out of place—he as a recent arrival from the provinces, and she as an immigrant from the island of Mauritius. They quickly fell in love, married, and moved to a village in southwestern France, to live on the shores of the Atlantic with their little girl, Laura. In order to earn a living, Adam has left behind his love of painting to become an architect, and Anita has turned her desire to write into a job freelancing for a local newspaper. Over time, the monotony of daily life begins to erode the bonds of their marriage. The arrival of Adèle, an undocumented immigrant from Mauritius whom they hire to care for Laura, sparks artistic inspiration for both Adam and Anita, as well as a renewed energy in their relationship. But this harmony proves to be short-lived, brought down by their separate transgressions of Adèle's privacy and a subsequently tragic turn of events. With the careful observation, vivid description, and emotional resonance that are the hallmarks of her previous novel, *The Last Brother*, in *Waiting for Tomorrow* Nathacha Appanah investigates the life of the artist, the question of cultural differences within a marriage, and the creation and the destruction of a family.

A heartbreaking, lyrical story for all of those who have fantasized about escaping their daily lives and starting over. Michael Kabongo is a British-Congolese teacher living in London on the cusp of two identities. On paper, he seems to have it all: He's beloved by his students, popular with his coworkers, and the pride and joy of a mother who emigrated from the Congo to the UK in search of a better life. But behind closed doors, he's been struggling with the overwhelming sense that he can't address the injustices he sees raging before him—from his relentless efforts to change the lives of his students for the better to his attempts to transcend the violence and brutality that marginalizes young Black men around the world. Then one day he suffers a devastating loss, and his life is thrown into a tailspin. As he struggles to find a way forward, memories of his fathers' violent death, the weight of refugeehood, and an increasing sense of dread threaten everything he's worked so hard to achieve. Longing to escape the shadows in his mind and start anew, Michael decides to spontaneously pack up and go to America, the mythical "land of the free," where he imagines everything will be better, easier—a place where he can become someone new, someone without a past filled with pain. On this transformative journey, Michael travels everywhere from New York City to San Francisco, partying with new friends, sparking fleeting romances, and splurging on big adventures, with the intention of living the life of his dreams until the money in his bank account runs out. Written in spellbinding prose, with Bola's trademark magnetic storytelling, *The Selfless Act of Breathing* takes us on a wild ride to odd but exciting places as Michael makes surprising new connections and faces old prejudices in new settings.
