King Leopold's Ghost: A Story of Greed, Terror and Heroism in Colonial Africa is a best-selling popular history book by Adam Hochschild that explores the exploitation of the Congo Free State by King Leopold II of Belgium between 1885 and 1908, as well as the large-scale atrocities committed during that period. The book, also a general biography of the private life of Leopold, succeeded in increasing public awareness of these crimes in recent decades. The book was refused by nine of the ten U.S.

"KING LEOPOLD'S GHOST has a riveting cast of characters: heroes, villains and bit-players, all extraordinary, all compelling tangles of neuroses and ambitions, all wonderfully drawn." --The Observer  
"To an already long list of tyrants which includes Hitler, Stalin, Pol Pot and Idi Amin, a late addition is required. 'Late' only because King Leopold II of Belgium (1835-1909) should always have been there.

King Leopold's Ghost Summary. In the centuries following the discovery of the New World, the countries of Europe became very wealthy and powerful. Britain, Portugal, Spain, and France acquired new land and resources by colonizing parts of the Americas, Australia, Asia, and Africa. Belgium, as a small, relatively new European country, lagged far behind its rivals as an imperial power.

*King Leopold's Ghost by Adam Hochschild Plot Summary ...*

By the 1890s, King Leopold personally controlled all the land in the Congo, thanks to Stanley's intimidation policies in the previous decade. As a result, Leopold acted as a kind of venture capitalist, leasing out his property to private companies. But unlike a venture capitalist, Leopold had his own private army, which he used to protect his territory and consolidate his control over the ...

It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and found themselves in the middle of a gruesome holocaust.

*King Leopold's Ghost: A Story of Greed, Terror and Heroism ...*

*King Leopold's Ghost* isn't just a book about the Belgian occupation of the Congo in the late 19th century; it's about the legacy of the Belgian occupation, and the legacy of Western imperialism in general.

With an introduction by award-winning novelist Barbara Kingsolver In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. . While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. Winner of the Duff Cooper Prize in 1999, *King Leopold's Ghost* is the true and haunting account of this man's brutal regime and its lasting effect on a ruined nation. It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity.

In the 1880s, as the European powers were carving up Africa, King Leopold II of Belgium seized for himself the vast and mostly unexplored territory surrounding the Congo River. Carrying out a genocidal plundering of the Congo, he looted its rubber, brutalized its people, and ultimately slashed its population by ten million—all the while shrewdly cultivating his reputation as a great humanitarian. Heroic efforts to expose these crimes eventually led to the first great human rights movement of the twentieth century, in which everyone from Mark Twain to the Archbishop of Canterbury participated. *King Leopold's Ghost* is the haunting account of a megalomaniac of monstrous proportions, a man as cunning, charming, and cruel as any of the great Shakespearean villains. It is also the deeply moving portrait of those who fought Leopold: a brave handful of missionaries, travelers, and young idealists who went to Africa for work or adventure and unexpectedly found themselves witnesses to a holocaust. Adam Hochschild brings this largely untold story alive with the wit and skill of a Barbara Tuchman. Like her, he knows that history often provides a far richer cast of characters than any novelist could invent. Chief among them is Edmund Morel, a young British shipping agent who went on to lead the international crusade against Leopold. Another hero of this tale, the Irish patriot Roger Casement, ended his life on a London gallows. Two courageous black Americans, George Washington Williams and William Sheppard, risked much to bring evidence of the Congo atrocities to the outside world. Sailing into the middle of the story was a young Congo River steamboat officer named Joseph Conrad. And looming above them all, the duplicitous billionaire King Leopold II. With great power and compassion, *King Leopold's Ghost* will brand the

tragedy of the Congo—too long forgotten—onto the conscience of the West.

Dear, dear, when the soft-hearts get hold of thing like that missionary's contribution they completely lose their tranquility they speak profanely and reproach Heaven for allowing such a find to live. Meaning me . They think it irregular. They go shuddering around, brooding over the reduction of that Congo population from 25,000,000 to 15,000,000 in the twenty years of my administration ; then they burst out and call me the King with Ten Million Murders on his Soul. They call me a 'record'.

The definitive account of exploitation in the Congo, introduced by Adam Hochschild In the early twentieth century, the worldwide rubber boom led British entrepreneur Lord Leverhulme to the Belgian Congo. Warmly welcomed by the murderous regime of King Leopold II, Leverhulme set up a private kingdom reliant on the horrific Belgian system of forced labour, a programme that reduced the population of Congo by half and accounted for more deaths than the Nazi Holocaust. In this definitive, meticulously researched history, Jules Marchal exposes the nature of forced labour under Lord Leverhulme's rule and the appalling conditions imposed upon the people of Congo. With an extensive introduction by Adam Hochschild, Lord Leverhulme's Ghosts is an important and urgently needed account of a laboratory of colonial exploitation.

An in-depth exploration of the legacy of Joseph Stalin on the former Soviet Union, by the author of King Leopold's Ghost. Although some twenty million people died during Stalin's reign of terror, only with the advent of glasnost did Russians begin to confront their memories of that time. In 1991, Adam Hochschild spent nearly six months in Russia talking to gulag survivors, retired concentration camp guards, and countless others. The result is a riveting evocation of a country still haunted by the ghost of Stalin. A New York Times Notable Book "An important contribution to our awareness of the former Soviet Union's harrowing past and unsettling present."—Los Angeles Times "A perceptive, intelligent book demonstrating that the significance of the gulag transcends the confines of one country and one generation."—New York Times Book Review "This probing and sensitive book...casts striking new light upon the Russian past and present."—Washington Post Book World "The voices [Hochschild] has recorded, the relics he has seen, are haunting—and the raw material of a terrific book."—David Remnick, Pulitzer Prize-winning author of Lenin's Tomb "No other work has brought home the full horror of this monstrous dictator's rule than this close-up account."—Daniel Schorr, former senior news analyst, National Public Radio

The author, an activist in the anti-war movement and co-founder of "Mother Jones," America's largest progressive magazine, recounts his relationship with his father, chief of a multinational corporation that owned mines all over South Africa. Reprint.

In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the "war to end all wars." Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history's most senseless spasms of carnage, defying rational explanation. To End All Wars focuses on the long-ignored moral drama of the war's critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain's most prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn't cooler heads prevail? And can we ever avoid repeating history?

SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 37-page guide for "Ghost" by Jason Reynolds includes detailed chapter summaries and analysis covering 10 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 25 important quotes, essay topics, and key themes like You Can't Escape Yourself and Overcoming a Traumatic Childhood.

"King Leopold of Belgium's exploits up the Congo River in the 1880s were central to the European partitioning of the African continent. The Congo Free State, Leopold's private colony, was a unique political construct that opened the door to the savage exploitation of the Congo's natural and human resources by international corporations. The resulting 'red rubber' scandal—which laid bare a fundamental contradiction between the European propagation of free labor and 'civilization' and colonial governments' acceptance of violence and coercion for productivity's sake—haunted all imperial powers in Africa. Featuring a clever introduction and judicious collection of documents, Michael Rutz's book neatly captures the drama of one king's quest to build an empire in Central Africa—a quest that began in the name of anti-slavery and free trade and ended in the brutal exploitation of human lives. This volume is an excellent starting point for anyone interested in the history of colonial rule in Africa." —Jelmer Vos, University of Glasgow
