Kiss of the Yogini: Amazon.co.uk: David Gordon White ...

Kiss of the Yogini focuses on what White identifies as the sole truly distinctive feature of South Asian Tantra: sexualized ritual practices, especially as expressed in the medieval Kaula rites. Such practices centered on the exchange of powerful, transformative sexual fluids between male practitioners and wild female bird and animal spirits known as Yoginis.

Yogini (Sanskrit: ??????, IAST: yogin?) is a female master practitioner of yoga, as well as a formal term of respect for female Hindu or Buddhist spiritual teachers in Indian subcontinent, Southeast Asia and Greater Tibet.The term is the feminine Sanskrit word of the masculine yogi, while the term "yogini" IPA: [ʋoʋ??n] is used in neutral, masculine or feminine sense.

Yogini - Wikipedia The Atlanta artist shared the first installment of his KISS series in 2011, a softer side to his music with a combination of intimate lyrics and sensual instrumentals. Release after release Camp continued to receive high praise from various media outlets including Fader, who called KISS 2 " encouraging, sex-positive and downright feminist ," XXL, Complex, amongst others.

For those who wonder what relation actual Tantric practices bear to the "Tantric sex" currently being marketed so successfully in the West, David Gordon White has a simple answer: there is none. Sweeping away centuries of misunderstandings and misrepresentations, White returns to original texts, images, and ritual practices to reconstruct the history of South Asian Tantra from the medieval period to the present day. Kiss of the Yogini focuses on what White identifies as the sole truly distinctive feature of South Asian Tantra: sexualized ritual practices, especially as expressed in the medieval Kaula rites. Such practices centered on the exchange of powerful, transformative sexual fluids between male practitioners and wild female bird and animal spirits known as Yoginis. It was only by "drinking" the sexual fluids of the Yoginis that men could enter the family of the supreme godhead and thereby obtain supernatural powers and transform themselves into gods. By focusing on sexual rituals, White resituates South Asian Tantra, in its precolonial form, at the center of religious, social, and political life, arguing that Tantra was the mainstream, and that in many ways it continues to influence contemporary Hinduism, even if reformist misunderstandings relegate it to a marginal position. Kiss of the Yogini contains White's own translations from over a dozen Tantras that have never before been translated into any European language. It will prove to be the definitive work for persons seeking to understand Tantra and the crucial role it has played in South Asian history, society, culture, and religion.

Since the 1960s, yoga has become a billion-dollar industry in the West, attracting housewives and hipsters, New Agers and the old-aged. But our modern conception of yoga derives much from nineteenth-century European spirituality, and the true story of yoga's origins in South Asia is far richer, stranger, and more entertaining than most of us realize. To uncover this history, David Gordon White focuses on yoga's practitioners. Combing through millennia of South Asia's vast and diverse literature, he discovers that yogis are usually portrayed as wonder-workers or sorcerers who use their dangerous supernatural abilities—which can include raising the dead, possession, and levitation—to acquire power, wealth, and sexual gratification. As White shows, even those yogis who aren't downright villainous bear little resemblance to Western assumptions about them. At turns rollicking and sophisticated, Sinister Yogis tears down the image of yogis as detached, contemplative teachers, finally placing them in their proper context.

The Alchemical Body excavates and centers within its Indian context the lost tradition of the medieval Siddhas. Working from previously unexplored alchemical sources, David Gordon White demonstrates for the first time that the medieval disciplines of Hindu alchemy and hatha yoga were practiced by one and the same people, and that they can be understood only when viewed together. White opens the way to a new and more comprehensive understanding of medieval Indian mysticism, within the broader context of south Asian Hinduism, Buddhism, Jainism, and Islam. "White proves a skillful guide in disentangling historical and theoretical complexities that have thus far bedeviled the study of these influential aspects of medieval Indian culture."—"Yoga World "Anyone seriously interested in finding out more about authentic tantra, original hatha yoga, embodied liberation . . . sacred sexuality, paranormal abilities, healing, and of course alchemy will find White's extraordinary book as fascinating as any Tom Clancy thriller."—Georg Feuerstein, Yoga Journal

As David White explains in the Introduction to Tantra in Practice, Tantra is an Asian body of beliefs and practices that seeks to channel the divine energy that grounds the universe, in creative and liberating ways. The subsequent chapters reflect the wide geographical and temporal scope of Tantra by examining thirty-six texts from China, India, Japan, Nepal, and Tibet, ranging from the seventh century to the present day, and representing the full range of Tantric experience--Buddhist, Hindu, Jain, and even Islamic. Each text has been chosen and translated, often for the first time, by an international expert in the field who also provides detailed background material. Students of Asian religions and general readers alike will find the book rich and informative. The book includes plays, transcribed interviews, poetry, parodies, inscriptions, instructional texts, scriptures, philosophical conjectures, dreams, and astronomical speculations, each text illustrating one of the diverse traditions and practices of Tantra. Thus, the nineteenth-century Indian Buddhist Garland of Gems, a series of songs, warns against the illusion of appearance by referring to bees, yogurt, and the fire of Malaya Mountain; while fourteenth-century Chinese Buddhist manuscripts detail how to prosper through the Seven Stars of the Northern Dipper by burning incense, making offerings to scriptures, and chanting incantations. In a transcribed conversation, a modern Hindu priest in Bengal candidly explains how he serves the black Goddess Kali and feeds temple skulls lentils, wine, or rice; a seventeenth-century Nepalese Hindu praise-poem hammered into the golden doors to the temple of the Goddess Taleju lists a king's faults and begs her forgiveness and grace. An introduction accompanies each text, identifying its period and genre, discussing the history and influence of the work, and identifying points of particular interest or difficulty. The first book to bring together texts from the entire range of Tantric phenomena, Tantra in Practice continues the Princeton Readings in Religions series. The breadth of work included, geographic areas spanned, and expert scholarship highlighting each piece serve to expand our understanding of what it means to practice Tantra.

"An impressive and important cross-cultural study that has vast implications for history, religion, anthropology, folklore, and other fields. . . . Remarkably wide-ranging and extremely well-documented, it covers (among much else) the following: medieval Christian legends such as the 14th-century Ethiopian Gadla Hawaryat (Contendings of the Apostles) that had their roots in Parthian Gnosticism and Manichaeism; dog-stars (especially Sirius), dog-days, and canine psychopomps in the ancient and Hellenistic world; the cynocephalic hordes of the ancient geographers; the legend of Prester John; Visvamitra and the Svapacas ("Dog-Cookers"); the Dog Rong ("warlike barbarians") during the Xia, Shang, and Zhou periods; the nochoy ghajjar (Mongolian for "Dog Country") of the Khitans; the Panju myth of the Southern Man and Yao "barbarians" from chapter 116 of the History of the Latter Han and variants in a series of later texts; and the importance of dogs in ancient Chinese burial rites. . . . Extremely well-researched and highly significant."—Victor H. Mair, Asian Folklore Studies

Tantra is a family of rituals modeled on those of the Vedas and their attendant texts and lineages. These rituals typically involve the visualization of a deity, offerings, and the chanting of his or her mantra. Common variations include visualizing the deity in the act of sexual union with a consort, visualizing oneself as the deity, and "transgressive" acts such as token consumption of meat or alcohol. Most notoriously, non-standard ritualized sex is sometimes practiced. This accounts for Tantra's negative reputation in some quarters and its reception in the West primarily as a collection of sexual practices. Although some today extol Tantra's liberating qualities, the role of women remains controversial. Traditionally there are two views of women and Tantra. Either the feminine is a metaphor and actual women are altogether absent, or Tantra involves the transgressive use of women's bodies to serve male interests. Lorilai Biernacki presents an alternative view, in which women are revered, worshipped, and considered worthy of spiritual attainment. Her primary sources are a collection of eight relatively modern Tantric texts written in Sanskrit from the 15th through the 18th century. Her analysis of these texts reveals a view of women that is generally positive and empowering. She focuses on four topics: 1) the "Kali Practice," in which women appear not only as objects of reverence but as practitioners and gurus; 2) the Tantric sex rite, especially in the case that, contrary to other Tantric texts, the preference is for wives as ritual consorts; 3) feminine language and the gendered implications of mantra; and 4) images of male violence towards women in tantric myths. Biernacki, by choosing to analyse eight particular Sanskrit texts, argues that within the tradition of Tantra there exists a representation of women in which the female is an authoritative, powerful, equal participant in the Tantric ritual practice.

A richly illustrated tapestry of interwoven studies spanning some six thousand years of history, Dæmons Are Forever is at once a record of archaic contacts and transactions between humans and protean spirit beings—dæmons—and an account of exchanges, among human populations, of the science of spirit beings: dæmonology. Since the time of the Indo-European migrations, and especially following the opening of the Silk

Road, a common dæmonological vernacular has been shared among populations ranging from East and South Asia to Northern Europe. In this virtuoso work of historical sleuthing, David Gordon White recovers the trajectories of both the “inner demons” cohabiting the bodies of their human hosts and the “outer dæmons” that those same humans recognized each time they encountered them in their enchanted haunts: sylvan pools, sites of geothermal eruptions, and dark forest groves. Along the way, he invites his readers to reconsider the potential and promise of the historical method in religious studies, suggesting that a “connected histories” approach to Eurasian dæmonology may serve as a model for restoring history to its proper place at the heart of the discipline of the history of religions.

An enjoyable board book for babies and toddlers that introduces facial expressions, emotions and gestures of affection. In Kiss, Tickle, Cuddle, Hug, emotions are linked to facial expressions with an array of colorful close-up photographic images that showcases a multiethnic cast of babies. Perfect for little hands to hold, this is a board book to share and enjoy over and over again.
