"The woman looked around my office. She looked at the old furniture and the dirty windows. She looked at the broken blind and the plastic coffee cups in the waste bin. Then she looked at me. I wasn't looking good. I hadn't shaved. And my suit and hair were untidy. The woman didn't speak. Suddenly, she took a handkerchief out of her bag. She wiped the dust from the chair and she sat down. 'Mr Samuel,' she said. 'I saw your name and address in the telephone book. Are you cheap? And are you a good detective?' 'I'm not good,' I replied. 'I'm the best. The best private detective in Los Angeles.'--Back cover note.

It is 1998, the year in which America is whipped into a frenzy of prurience by the impeachment of a president, and in a small New England town, an aging classics professor, Coleman Silk, is forced to retire when his colleagues decree that he is a racist. The charge is a lie, but the real truth about Silk would have astonished his most virulent accuser. Coleman Silk has a secret. But it's not the secret of his affair, at seventy-one, with Faunia Farley, a woman half his age with a savagely wrecked past--a part-time farmhand and a janitor at the college where, until recently, he was the powerful dean of faculty. And it's not the secret of Coleman's alleged racism, which provoked the college witch-hunt that cost him his job and, to his mind, killed his wife. Nor is it the secret of misogyny, despite the best efforts of his ambitious young colleague, Professor Delphine Roux, to expose him as a fiend. Coleman's secret has been kept for fifty years: from his wife, his four children, his colleagues, and his friends, including the writer Nathan Zuckerman, who sets out to understand how this eminent, upright man, esteemed as an educator for nearly all his life, had fabricated his identity and how that cannily controlled life came unraveled. Set in 1990s America, where conflicting moralities and ideological divisions are made manifest through public denunciation and rituals of purification, *The Human Stain* concludes Philip Roth's eloquent trilogy of postwar American lives that are as tragically determined by the nation's fate as by the "human stain" that so ineradicably marks human nature. This harrowing, deeply compassionate, and completely absorbing novel is a magnificent successor to his Vietnam-era novel, *American Pastoral*, and his McCarthy-era novel, *I Married a Communist*.
