McFarlane, Hopkins, and Nield's Land Law is the most succinct, analytical textbook available in this subject area. These experienced and respected authors have used their unique approach to land law to provide a consistent structure with which students and lecturers can tackle the topics. The approach arms students with the tools needed to analyse content covered in classes and exams autonomously by demonstrating how to consider rules in isolation before looking at the full picture. This method helps students make links across topics. The concise treatment allows students to concentrate on building an in-depth, sophisticated grasp of the core principles. The authors' direct writing style and contextual outlook guides readers through the depth and detail and gives lucidity to abstract rules. The use of significant cases to exemplify rules in practice and diagrams for visual learners gives additional clarity to concepts that are particularly difficult to imagine. Students are encouraged to test their knowledge by answering end-of-chapter questions and to widen their research by referring to the resources suggested in the further reading lists accompanying each chapter. Online resources Students can access additional supportive materials online including:- Web links to useful sites containing further information on chapter-specific topics- Self-test questions with instant feedback- Essay questions and guidance on how to answer them- Updates on legal developments in land law

This book provides students with a basic understanding of intellectual property law. Covering the six main areas of patents, copyright, industrial designs, confidential information, unregistered and registered trademarks, it places intellectual property in its wider context.

This volume in the 'Core Text Series' covers the law of trusts, explaining from first principles what 'trusts' is about and providing the student with an understanding of the law and the important academic controversies surrounding it.

The second edition of Land Law: Text, Cases, and Materials offers a stimulating and thought-provoking guide to land law. With insightful commentary and carefully selected primary and secondary material this book provides the resources necessary for a thorough study of land law.

Unlocking Land Law will help you grasp the main concepts of the subject with ease. Containing accessible explanations in clear and precise terms that are easy to understand, it provides an excellent foundation for learning and revising land law. The information is clearly presented in a logical structure and the following features support learning, helping you to advance with confidence: clear learning outcomes at the beginning of each chapter set out the skills and knowledge you will need to get to grips with the subject; key facts summaries throughout each chapter allow you to progressively build and consolidate your understanding; end-of-chapter summaries provide a useful check-list for each topic; cases and judgments are highlighted to help you find them and add them to your notes quickly; frequent activities and self-test questions are included so you can put your knowledge into practice; sample essay questions with annotated answers prepare you for assessment; glossary of legal terms clarifies important definitions. This edition has been extensively rewritten and updated to include discussion of recent changes and developments within the module. These include the decision in *Marr v Collie* [2017] UKPC 17 and its implications on implied trusts and rights in the family home; *Regency Villas Title Ltd v Diamond Resorts* [2017] EWCA Civ 238, which has reviewed the definition of an easement; *Smith v Molyneux* [2016] UKPC 35, which revisits the law on consent to a licence in adverse possession cases, and, not least, the interesting decision in *Baker v Craggs* [2018] EWCA 1126, which considers what constitutes a legal

In its third edition (previously entitled Labour Law), Employment Law Core Text has emerged as an extremely valuable student text, providing balanced coverage of the key legislative provisions impacting employment relationships. Tailored to meet the needs of employment law modules, the authors' straightforward approach ensures that the text guides students concisely through the ever changing legislative maze of employment law. Areas of recent development are clearly highlighted, particularly relating to discrimination and equal pay, which are now chapters in their own right. The chapter summaries, self-test questions, and further reading sections enable students to critically self-test themselves as well as aiding exam preparation.

The core principles of land law are articulated clearly in this new textbook, providing a framework through which students can gain a sophisticated understanding of the modern land law system. Emma Lees' expertise in research and teaching ensures all topics are thoroughly explained in a friendly and accessible style. The textbook uses a unique structure: "Chapter Goals" outline the key learning objectives while the core "Principles" are summarised to conclude each chapter with a comprehensive overview of the topic at hand. Key cases are explained while examples illustrate problems and possible solutions. Students understand how to accurately apply the core principles to land law scenarios, while also conducting their own critical analysis of the subject area. The author's enthusiasm is imbued in the writing style; students actively engage with the key debates and at the same time develop an appreciation of the subject as a whole. A comprehensive interpretation of this subject, The Principles of Land Law is the ideal companion to a course in land law. Online resources Bimonthly updates on recent law changes.

This book provides a full and clear exposition of the fundamentals of intellectual property law in the UK. It combines excerpts from cases and a broad range of secondary works with insightful commentary from the authors which will situate the law within a wider international context.

Modern Land Law offers a lively and thought-provoking account of a subject that remains at the heart of our legal system. Dispelling any apprehension about the subject's formidability from the outset, this compact textbook provides an absorbing and exact analysis of all the key legal principles relating to land. Written with students firmly in mind, the principal features of this textbook include: • a clear introduction to every chapter which frames each topic in its wider context; • corresponding chapter summaries which help to consolidate learning and encourage reflection; • the use of tables and diagrams to aid understanding of complicated topics; • a friendly two-color text design which complements Martin Dixon's comprehensible and engaging writing; • an updated companion website which supports this textbook with a fully customizable testbank for lecturers; self-test questions and practice exam-style questions for students as well as podcasts to keep students updated with new cases, important decisions and other newsworthy issues relating to land law. This 9th edition has been thoroughly revised and updated to take into account key developments in the law in the light of the Law Commission's recommendations on easements and covenants, as well as the increased impact of the HRA 1998 on case law. All major recent decisions and judgments will be incorporated
