In what has become a bible for the business world, the successful former CEO of Herman Miller, Inc., explores how executives and managers can learn the leadership skills that build a better, more profitable organization. Leadership Is an Art has long been a must-read not only within the business community but also in professions ranging from academia to medical practices, to the political arena. First published in 1989, the book has sold more than 800,000 copies in hardcover and paperback. This revised edition brings Max De Pree ' s timeless words and practical philosophy to a new generation of readers. De Pree looks at leadership as a kind of stewardship, stressing the importance of building relationships, initiating ideas, and creating a lasting value system within an organization. Rather than focusing on the " hows " of corporate life, he explains the " whys. " He shows that the first responsibility of a leader is to define reality and the last is to say thank you. Along the way, the artful leader must: • Stimulate effectiveness by enabling others to reach both their personal potential and their institutional potential • Take a role in developing, expressing, and defending civility and values • Nurture new leaders and ensure the continuation of the corporate culture Leadership Is an Art offers a proven design for achieving success by developing the generous spirit within all of us. Now more than ever, it provides the insights and guidelines leaders in every field need.

Since it was first published to wide acclaim in 1992, the bestselling Leadership Jazz has firmly placed itself among the great business classics. Former President Bill Clinton called it " astonishing, " and the late Peter Drucker advised, " Read this slowly. This book is wisdom in action. " Now updated for first time in well over a decade, this powerful book reveals why today, more than ever, leadership is more an art than a science. Today ' s best leaders, De Pree says, are attuned to the needs and ideas of their followers, and even step aside at times to be followers themselves. Filled with insightful stories from De Pree ' s experience as the chairman of Herman Miller and from people he ' s met along the way, Leadership Jazz reveals how to: • Hold people accountable and give them space to reach their potential • See the needs of employees and those of the company as the same • Inspire change and innovation • Work effectively with creative people Complete with an extensive new introduction from De Pree on why his philosophy is more relevant now than ever before, Leadership Jazz gives you an entirely new way to look at the difficult job of leader.

Uses nonprofit organizations as an example of a new style of management, which sets standards for leadership and service that all organizations can learn from

Many people think leadership is a higher calling that resides exclusively with a select few who practice and preach big, complex leadership philosophies. But as this practical book reveals, what ' s most important for leadership is principled consistency. Time and again, small things done well build trust and respect within a team. Using stories from his time at Netscape, Apple, and Slack, Michael Lopp presents a series of small but compelling practices to help you build leadership skills. You ' ll learn how to create teams that are highly productive, highly respected, and highly trusted. Lopp has been speaking and writing about this topic for over a decade and now maintains a Slack leadership channel with over 13,000 members. The essays in this book examine the practical skills Lopp learned from exceptional leaders—as a manager at Netscape, a senior manager and director at Apple, and an executive at Slack. You ' ll learn how to apply these lessons to your own experience.

Called to Serve is for people with questions about creating and maintaining a successful nonprofit board. How can the board of a nonprofit organization work best? Now that I'm on such a board, what should I do? How can we find the best trustees? How should I think about my work for nonprofits? What kind of relationship between a board and the staff will work best? How can we organize and develop the service of busy, committed people? Internationally renowned CEO and best-selling author Max De Pree packs his many years of experience on nonprofit boards into these short letters directed to busy folks active in nonprofit life. Brief, clear, and -- above all -- useful, Called to Serve notes the marks of an effective board, lays out the proper work of boards, gives choices for structuring a nonprofit board, and covers the roles and relationships of board chairpersons, trustees, and presidents. Today there are more than 1.5 million nonprofit organizations in America, with 109 million people working in this important sector of society. In spite of this surprising fact, very little training exists for this kind of service. Called to Serve is valuable not only because it fills this need but also because it comes from the pen of one of America's most experienced and respected business leaders.

The late author, one of the first women to enter the field of management consulting, experienced what she described as "nibbles"--little bites that life takes out of a person's self confidence. A " must-read " (Booklist) from Harvard Business School Professor and Codirector of the Harvard Kennedy School ' s Center for Public Leadership: A guide to making better decisions, noticing important information in the world around you, and improving leadership skills. Imagine your advantage in negotiations, decision-making, and leadership if you could teach yourself to see and evaluate information that others overlook. The Power of Noticing provides the blueprint for accomplishing precisely that. Max Bazerman, an expert in the field of applied behavioral psychology, draws on three decades of research and his experience instructing Harvard Business School MBAs and corporate executives to teach you how to notice and act on information that may not be immediately obvious. Drawing on a wealth of real-world examples and using many of the same case studies and thought experiments designed in his executive MBA classes, Bazerman challenges you to explore your cognitive blind spots, identify any salient details you are programmed to miss, and then take steps to ensure it won ' t happen again. His book provides a step-by-step guide to breaking bad habits and spotting the hidden details that will change your decision-making and leadership skills for the better, teaching you to pay attention to what didn ' t happen, acknowledge self-interest, invent the third choice, and realize that what you see is not all there is. While many bestselling business books have explained how susceptible to manipulation our irrational cognitive blind spots make us, Bazerman helps you avoid the habits that lead to poor decisions and ineffective leadership in the first place. With The Power of Noticing at your side, you can learn how to notice what others miss, make wiser decisions, and lead more successfully.
