My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

In the spring of 1989, millions of citizens across China took to the streets in a nationwide uprising against government corruption and authoritarian rule. What began with widespread hope for political reform ended with the People's Liberation Army firing on unarmed citizens in the capital city of Beijing, and those leaders who survived the crackdown became wanted criminals overnight. Among the witnesses to this unprecedented popular movement was Rowena Xiaoqing He, who would later join former student leaders and other exiles in North America, where she has worked tirelessly for over a decade to keep the memory of the Tiananmen Movement alive. This moving oral history interweaves He's own experiences with the accounts of three student leaders exiled from China. Here, in their own words, they describe their childhoods during Mao's Cultural Revolution, their political activism, the bitter disappointments of 1989, and the profound contradictions and challenges they face as exiles. Variouslly labeled as heroes, victims, and traitors in the years after Tiananmen, these individuals tell difficult stories of thwarted ideals and disconnection, but that nonetheless embody the hope for a freer China and a more just world.

Lynsie Fox has what she considers to be a perfect life. Married to Lincoln, a military pilot, she's living the Army life she's always loved. Being a sucker for great love stories, Lynsie makes it her mission to find Lincoln's best friend and co-pilot, Dax Adams, a good woman. Losing the one woman he's ever loved, Dax attempts to be a good sport by playing along in Lynsie's match-making scheme. However, Dax is certain he will never get the woman of his dreams. But life doesn't always fly smoothly. When turbulence strikes, Lynsie watches her world crash and burn around her, leaving her empty with broken wings. Despite her grief, can she mend the pieces back together and learn to fly again?

"Words for Warriors: A Professional Soldier's Notebook" is about leadership-leadership on the battlefield and in the garrison. Colonel Ralph Puckett, a Ranger legend, shares what he has learned in more than fifty-eight years of training, leading, teaching, and mentoring Warriors. This book addresses tactics, training, administration, special staff, public relations, self-development, and myriad other subjects that are the responsibilities of commanders. Much of this advice will be useful to business leaders as well. The essays within are not limited to Colonel Puckett's experience. They draw heavily upon the experiences of others to provide a broad discussion of practical courses of action for the many challenges that confront leaders. This invaluable resource presents ideas that will help commanders with many of the problems that are part of everyday military life. "Words for Warriors" helps fill the gap between what is taught in our service schools and lessons learned through experience.

His discovery only in retirement that he has high-functioning autism provided Edgar Schneider at last with an explanation for his many differences, explored in Discovering my Autism. In this book he takes up the story, telling of his marriage to a like-minded woman, and of the day-to-day realities of life with this condition. His description of autistic attitudes towards relationships, politics, theology and health are rich and original. Schneider argues that if people with high-functioning autism and Asperger Syndrome are left to their own devices they are capable of making lives for themselves that are rich and rewarding.

Explores the beliefs and assumptions that shape people's lives, and explains how people's world views can in turn shape what they will become in the future.

In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us.

Set during the early years of the First Liberian Civil War (1989 – 1996), this startling debut play by Diana Nneka Atuona tells the story of fourteen-year-old Martha who flees her country, disguised as a boy, when it's invaded by rebels. Investigated and cruelly interrogated, she is separated from her grandmother as they attempt to escape the conflict under false identities and, convincing in her boy's apparel, Martha is forced to join the rebels' army. Exposed to the violence of this brutal and seemingly misguided conflict, both as victim and perpetrator, Martha's experience of the First Liberian Civil War is one of excessive cruelty and, in particular, abuse against female prisoners of war. Liberian Girl received its world premiere at the Royal Court Upstairs, London in December 2014.
