An evil liar will often lie so much that their lies are what form their reality. In living a life of lies, their own minds become prisoner to their own evil behaviors. Some evil people only lie a little bit, maybe stretching the truth to make themselves seem stronger, smarter, or better. Some evil people lie about you and others.

Living With Evil A Reflection on Sunday's Readings July 19, 2020 Over the past several weeks we have followed Matthews's Gospel as he shares the scenes, stories, and teachings of Jesus, both in the daily readings and our weekend liturgies.

Cynthia Owen grew up in Ireland, went to the local convent school, said her prayers and took her first communion with all the other girls in her class. But behind the façade of respectability lurked a hideous reality. Cynthia was just eight years old when she was sexually abused by her father amongst others. Shortly before her eleventh birthday she was made pregnant and, minutes after giving birth to the baby, Cynthia watched in horror as her own mother murdered the tiny infant, named Noleen, by repeatedly stabbing her with a knitting needle. Cynthia's mother then wrapped the baby girl in a plastic bag, dumped her in an alleyway and made her daughter go back to school and pretend nothing had ever happened. After enduring many more years of rape and violence, Cynthia came forward and reported her abuse and Noleen's death. Finally, in 2007, after a fifteen-year legal fight to have her baby girl formally identified, the jury at the 'Dun Laoghaire Baby' inquest declared that the baby found dead in an alleyway

thirty-four years previously was Noleen Murphy, the daughter of Cynthia Owen. Cynthia's is a horrific story of brutality and loss, but ultimately, it is an account of love, immense bravery and her fight for justice in Noleen's name.

Heather was young and beautiful, but she had ongoing man trouble and had trouble accepting her daughters Ellie and Becky. When she found a new husband, the option of sending the girls to live with their Aunt Aster was irresistible. As a parting gift, she gave the girls a beautiful doll . . . Zenoa. Ellie soon took out some of her frustrations on the doll, and it was terribly defaced. Just a few days later a terrible tragedy occurred. Aster and Ellie were killed with an ice pick, and six year-old Becky, the only survivor, was assumed to be the killer. A hundred years later, Gramma Virginia bought the doll in an antique store, had it restored, and gifted it to granddaughter Kit, on her ninth birthday. Kit was almost immediately fearful of the doll, and confided her fears to her older sister Pam. Some of what she said caused Pam to believe that Kit was having mental problems. However, in the middle of one night when Kit had awakened her, Pam decided to put the doll into the attic. While up there, she lost her balance and hit her head. Upon awakening the next morning, she discovered that all of her family had been killed. Since there was no evidence of anyone else in the house, she was convicted of murder and sentenced to thirty years in prison. Twenty-four years later Pam was released from prison and returned to the house where the murders had occurred. Her sister Beth had never gone in the house, and had left everything exactly as it had been. Pam had a mission in mind, but she was diverted from it when she learned that her nephew Justin was about to be married--to a young lady named Zenoa! Was this a coincidence? Pam tried to communicate her fears to other family members, but she constantly faced doubts and questions about her own sanity.

The inside story of how a courageous FBI informant helped to bring down the KKK organization responsible for a brutal civil rights–era killing. By early 1966, the work of Vernon Dahmer was well known in south Mississippi. A light-skinned Black man, he was a farmer, grocery store owner, and two-time president of the Forrest County chapter of the NAACP. He and Medgar Evers founded a youth NAACP chapter in Hattiesburg, and for years after Evers’s assassination Dahmer was the chief advocate for voting rights in a county where Black registration was shamelessly suppressed. This put Dahmer in the crosshairs of the White Knights, with headquarters in nearby Laurel. Already known as one of the most violent sects of the KKK in the South, the group carried out his murder in a raid that burned down his home and store. A year before, Tom Landrum, a young, unassuming member of a family with deep Mississippi roots, joined the Klan to become an FBI informant. He penetrated the White Knights’ secret circles, recording almost daily journal entries. He risked his life, and the safety of his young family, to chronicle extensively the clandestine activities of the Klan. Veteran journalist Curtis Wilkie draws on his exclusive access to Landrum’s journals to re-create these events—the conversations, the incendiary nighttime meetings, the plans leading up to Dahmer’s murder and its erratic execution—culminating in the conviction and imprisonment of many of those responsible for Dahmer’s death. In riveting detail, *When Evil Lived* in Laurel plumbs the nature and harrowing consequences of institutional racism, and brings fresh light to this chapter in the history of civil rights in the South—one with urgent implications for today.

Stephen Batchelor's seminal work on humanity's struggle between good and evil In the national bestseller *Living with the Devil*, Batchelor traces the trajectory from the words of the Buddha and Christ, through the writings of Shantideva, Milton, and Pascal, to the poetry of Baudelaire, the fiction of Kafka, and the findings of modern physics and evolutionary biology to examine who we really are, and to rest in the uncertainty that we may never know. Like his previous bestseller, *Buddhism without Beliefs*, *Living with the Devil* is also an introduction to Buddhism that encourages readers to nourish their "buddha nature" and make peace with the devils that haunt human life. He tells a poetic and provocative tale about living with life's contradictions that will challenge you to live your life as an existence imbued with purpose, freedom, and compassion—rather than habitual self-interest and fear.

Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks

dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.

There is nothing new about evil; it has been with us since time immemorial. But there is something new about the kind of evil that characterizes our contemporary liquid-modern world. The evil that characterized earlier forms of solid modernity was concentrated in the hands of states claiming monopolies on the means of coercion and using the means at their disposal to pursue their ends ends that were at times horrifically brutal and barbaric. In our contemporary liquid-modern societies, by contrast, evil has become altogether more pervasive and at the same time less visible. Liquid evil hides in the seams of the canvass woven daily by the liquid-modern mode of human interaction and commerce, conceals itself in the very tissue of human cohabitation and in the course of its routine and day-to-day reproduction. Evil lurks in the countless black holes of a thoroughly deregulated and privatized social space in which cutthroat competition and mutual estrangement have replaced cooperation and solidarity, while forceful individualization erodes the adhesive power of inter-human bonds. In its present form evil is hard to spot, unmask and resist. It seduces us by its ordinariness and then jumps out without warning, striking seemingly at random. The result is a social world that is comparable to a minefield: we know it is full of explosives and that explosions will happen sooner or later but we have no idea when and where they will occur. In this new book, the sequel to their acclaimed work *Moral Blindness* Zygmunt Bauman

and Leonidas Donskis guide the reader through this new terrain in which evil has become both more ordinary and more insidious, threatening to strip humanity of its dreams, alternative projects and powers of dissent at the very time when they are needed most.

Everyone at Shadyside High remembers when Corky Corcoran destroyed the evil spirit that attacked the cheerleaders. No one expected the evil to come back. No one knew that there was only one way to defeat it forever. No one knew that the answer lay hidden in Sarah Fear's grave.

For four centuries, New England has been a cradle of crime and murder—from the Salem witch trials to the modern-day mafia. Nineteenth century New England was the hunting ground of five female serial killers: Jane Toppan, Lydia Sherman, Nellie Webb, Harriet E. Nason, and Sarah Jane Robinson. Female killers are often portrayed as caricatures: Black Widows, Angels of Death, or Femme Fatales. But the real stories of these women are much more complex. In *Pretty Evil New England*, true crime author Sue Coletta tells the story of these five women, from broken childhoods, to first brushes with death, and she examines the overwhelming urges that propelled these women to take the lives of a combined total of more than one-hundred innocent victims. The murders, investigations, trials, and ultimate verdicts will stun and surprise readers as they live vicariously through the killers and the would-be victims that lived to tell their stories.

In 1994, Robert Black was convicted of the kidnapping, sexual assault and murder of three young girls, and sentenced to life imprisonment with a minimum tariff of thirty-five years; in 2011 he was convicted of a fourth such killing. He died in HMP Maghaberry, Northern Ireland, in January 2016, aged sixty-

eight, unmourned, and entirely unrepentant of his repellent crimes. These bald facts, horrific as they are, do not begin to scratch the surface of the truth about Robert Black, a Scottish-born serial killer who undoubtedly committed further murders for which he was never tried, both in this country and on the Continent. In this ground-breaking account, Robert Giles, who has spent years tracing the killer's movements and sifting through all the evidence, including transcripts of the trials, convincingly argues that Black was an habitual serial killer over many years, and quite certainly responsible for more than the four child murders for which he was convicted. Co-written with Chris Clark, a former police intelligence officer whose tireless work into the Yorkshire Ripper produced convincing new evidence of other murders that went unnoticed or unrecorded, *The Face of Evil* shows once and for all that Robert Black was a serial killer whose crimes went far beyond what is generally believed. In doing so, it paints a portrait of human cruelty at its worst.
