Twenty-five years ago, a disillusioned young man set out on a walk across America. This is the book he wrote about that journey -- a classic account of the reawakening of his faith in himself and his country. "I started out searching for myself and my country," Peter Jenkins writes, "and found both." In this timeless classic, Jenkins describes how disillusionment with society in the 1970s drove him out onto the road on a walk across America. His experiences remain as sharp and telling today as they were twenty-five years ago -- from the timeless secrets of life, learned from a mountain-dwelling hermit, to the stir he caused by staying with a black family in North Carolina, to his hours of intense labor in Southern mills. Many, many miles later, he learned lessons about his country and himself that resonate to this day -- and will inspire a new generation to get out, hit the road and explore.

An account of a kayak and canoe journey through the Brooks Range wilderness, impressions of urban life and political activity, and portraits of people in the bush make up a study of contemporary Alaska

Maddie and Logan were torn apart by a kidnapping attempt when they were young. They were only kids -- Logan's dad was POTUS and Maddie's father was the Secret Service agent meant to guard him. The kidnapers were stopped -- but Maddie was whisked off to Alaska with her father, for safety. Maddie and Logan had been inseparable . . . but then she never heard from him again. Now it's a few years later. Maddie's a teenager, used to living a solitary life with her father. It's quiet -- until Logan is sent to join them. After all this time without word, Maddie has nothing to say to him -- until their outpost is attacked, and Logan is taken. They won't be out of the woods until they're . . . out of the woods, and Maddie's managed to thwart the foes and reconcile with Logan.
